Resource Person	Name	Address	Contact Details
	Dr.P.Ponmurugan, M.E., Ph.D.,	Head - Research & Development, Sengunthar Engineering College, Tiruchengode.	96987 30088
Coordinators	Mr. N.Thiru Senthil Adhiban, AP/Mech Mr.M.Arunkumar, AP/ECE Mr.C.Mohankumar, AP/Mech Mr.M.Soundar Rajan, AP/Civil Mr.A.TamilSelvan, AP/EEE Mr.K.DineshKumar, AP/CSE Mr.M.Manikandan, AP/MBA		
Objective of the Activity	• To create an awareness about the benefits of Intellectual property among the students of society. • To stimulate the creation and growth cf intellectual property by undertaking relevant measures.		
Outcome of the Activity	• Learn to get adequate knowledge on patent and copyright for their innovative research works. • Gain knowledge for developing their idea or innovations.		
Coordinator of the Programme	Mr.C.Mohankumar, AP/Mech		

Entrepreneurship Development Cell, Sengunthar Engineering College organized a webinar on "Intellectual Property Rights" on 28th December 2021 at 3.00p.m. The speaker of the webinar was an eminent personality Dr.P.Ponmurugan, M.E., Ph.D., who is working as Head - Research & Development in Sengunthar Engineering College, Tiruchengode.

The webinar was organized under the guidance of Dr.M.Selvakumar, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

Then Mr.C.Mohankumar, Internal IIC-Cordinator welcomed all participants on the behalf of EDC Cell and then introduced the resource person by Mr. P.Maheshwaran, Third Year Mechanical Engineering Student.

Dr.P.Ponmurugan was our Keynote Speaker who explained in detail the role of students in Innovation and importance of identifying a social problem through community engagement and tells us about IPR and legal basic of IPR and their various forms like patents, trade secrete protection, designs, copyrights etc. This seminar gives knowledge about the IPR which is very useful to the students in their future to protect their innovation.

The seminar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

More than 150 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

Coordinator of the Programme	Mr.C.Mohankumar, AP/Mech		

Entrepreneurship Development Cell, Sengunthar Engineering College organized a webinar on **"Process Design and Development"** on 20th July 2022 at 3.00p.m. The speaker of the webinar was an eminent personality Mr.S.Murugesan, M.E., who is working as Assistant Professor / Mechancial in Sengunthar Engineering College, Tiruchengode.

The webinar was organized under the guidance of Dr.P.Ponmurugan, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

Then Mr.C.Mohankumar, Internal IIC-Cordinator welcomed all participants on the behalf of EDC Cell Mr.S.Murugesan was our Keynote Speaker who explained in detail the role of students in Innovation and importance of identifying a social problem through community engagement and tells us about how to create an idea, prototype, prototype design etc. This seminar gives knowledge about the prototype design and development which is very useful to the students in their future to protect their innovation.

The seminar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

More than 50 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

Outcome of the Activity	• Understand how angel investors render a helping hand to the start-up founder for funding early-stage start-ups. • Gain knowledge about the angel investment landscape in India.		
Coordinator of the Programme	Mr.C.Mohankumar, AP/Mech		

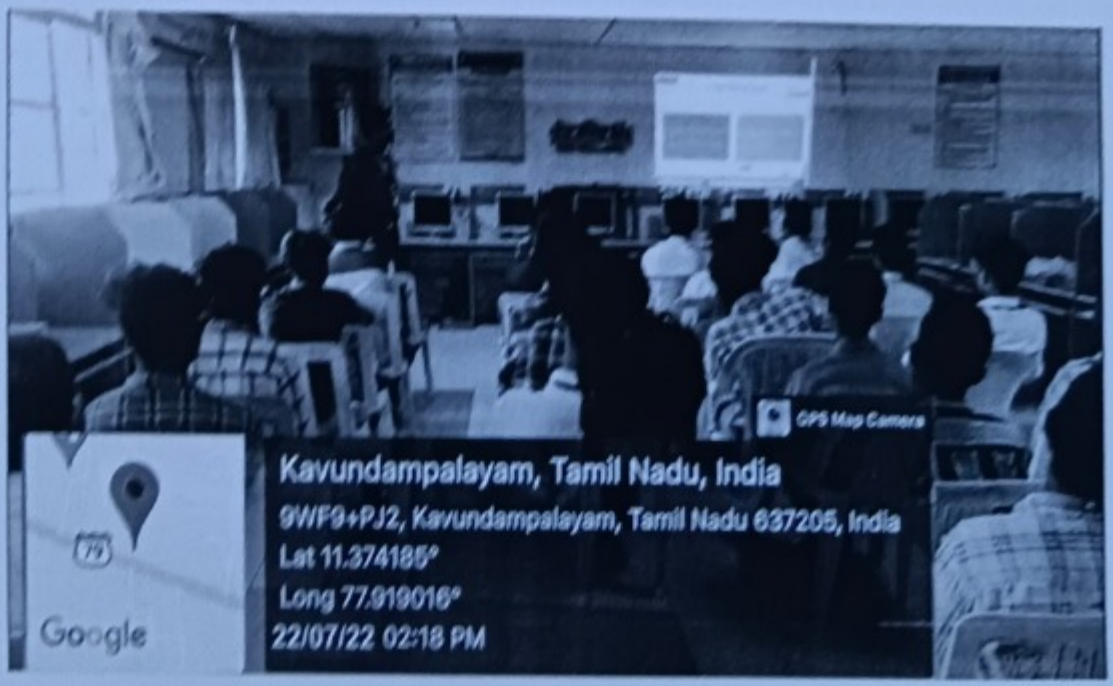

Entrepreneurship Development Cell, Sengunthar Engineering College organized a webinar on **"Angel Investment/VC Funding Opportunity for Early Stage Entrepreneurs"** on 22th July 2022 at 3.00p.m. The speaker of the webinar was an eminent personality Mr.S. Anandkumar, M.E., who is working as Assistant Professor / Civil in Sengunthar Engineering College, Tiruchengode.

The webinar was organized under the guidance of Dr.P.Ponmurugan, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

Then Mr.C.Mohankumar, Internal IIC-Cordinator welcomed all participants on the behalf of EDC Cell Mr.S.Anandkumar was our Keynote Speaker who explained in detail the role of students in Innovation and the sources of funding for early start-ups and help students understand the role of angel investors in funding a start-up etc. This seminar gives knowledge about the funding opportunities at earlier stage of entrepreneurs which is very useful to the students in their future.

The seminar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding investment, funding and its importance. The webinar ended with vote of thanks given by Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

More than 50 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

PROGRAMME CONTENT OR SYLLABUS

PROGRAMME TITLE: Seminar on "The Soft Skills Companies Need Most in 2021"

Academic Year: 2021-2022 Semester: ODD Date / Time: 02.07.2021 (03.30 pm to 04.30 pm)

The Soft Skills Companies Need Most in 2021

Creativity:

Connecting dots—that are seemingly unrelated—to generate original, useful solutions is an incredibly valuable skill in every student, regardless of what industry or country you're doing business in.

Persuasion:

Persuasion is convincing others to buy into your idea or a different way of doing things to build consensus or make a decision. It's one of the most powerful communication skills for students to have in their skill set.

Collaboration:

Students who can work effectively and efficiently to achieve a common goal—or influence others to the right end game.

Adaptability:

The only constant in life—and in business—is change. Students who thrive in a dynamic environment and bounce back quickly in the face of challenges are the ones who can handle anything that comes their way.

Emotional Intelligence:

Emotional intelligence is the ability to perceive, evaluate, and respond to your own emotions and the emotions of others.

PROGRAMME CONTENTOR SYLLABUS

PROGRAMME TITLE: Seminar on "Language and Communication Skills" for Civil Engineering

Academic Year: 2021-2022 Semester: ODD Date / Time: 05.01.2022 / 2.00 p.m. to 3.00 p.m.

Awareness about Language and Communication Skills

- How do you prefer to build rapport with others?
- How would you go about simplifying a complex issue in order to explain it to a client or colleague?
- How would you go about persuading someone to see things your way at work?
- How would you go about explaining a complex idea/problem to a client who was already frustrated?
- What would you do if there was a breakdown in communication at work?
- Talk about a successful presentation you gave and why you think it did well.
- Do you prefer written or verbal communication?
- How have you handled working under someone you felt was not good at communicating?

REPORT

S.No	Date	Name of the activity	Place of activity
1.	29.12.2021	ENVIRONMENTAL POLLUTION CONTROL	Online Mode

Objective:

The main objective is to make people aware of changes in Water, air, noise and its affect in the environment.

Programme:

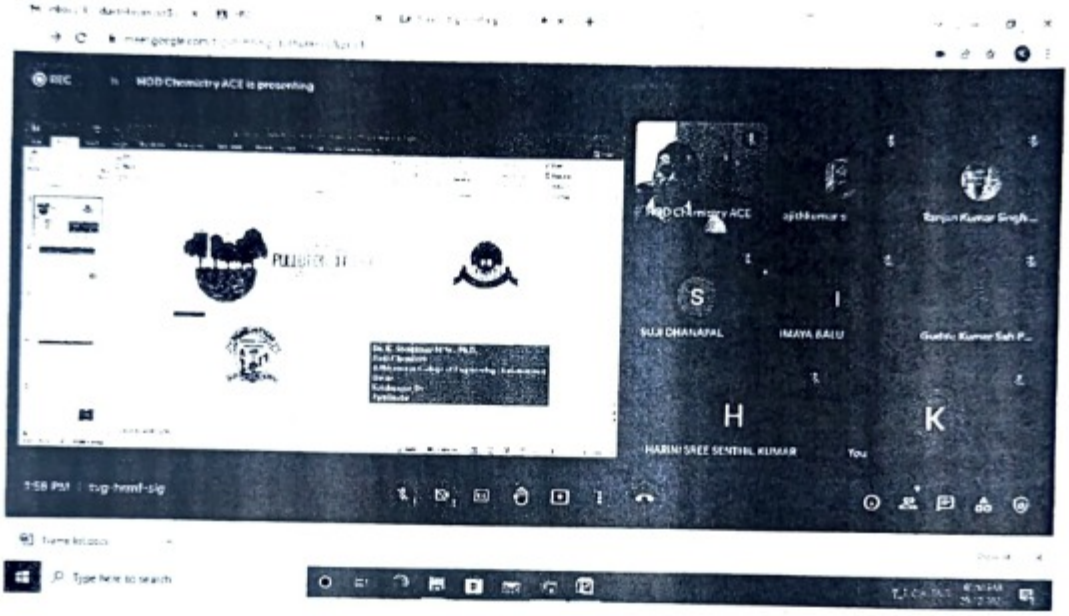

Dr.K.Sivakumar,M.Sc.,Ph.D, professor & head, dept of chemistry, Adhiyamaan college of engineering, graced the occasion by delivering his speech on environmental pollution control .

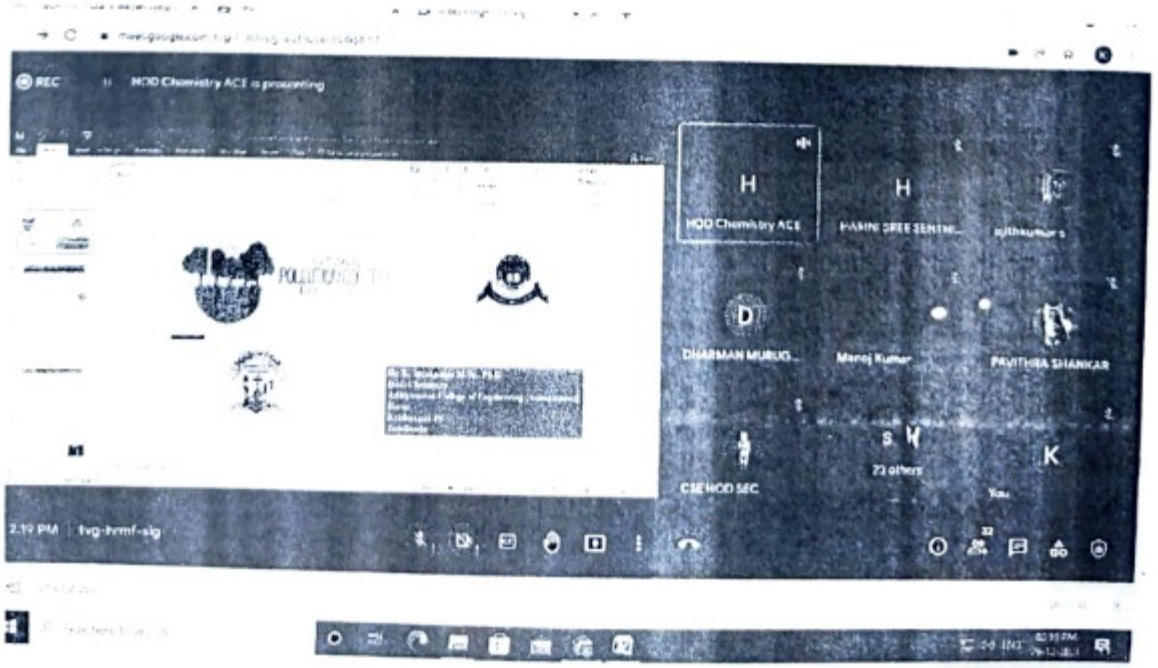

- Pollution is the introduction of contaminants into the natural environment that cause adverse change. Pollution can take the form of any substance (solid, liquid, or gas) or energy (such as radioactivity, heat, sound, or light). Pollutants, the components of pollution, can be either foreign substances/energies or naturally occurring contaminants. Although environmental pollution can be caused by natural events, the word pollution generally implies that the contaminants have an anthropogenic source—that is, a source created by human activities.
- Pollution is often classed as point source or nonpoint source pollution. In 2015, pollution killed 9 million people worldwide.

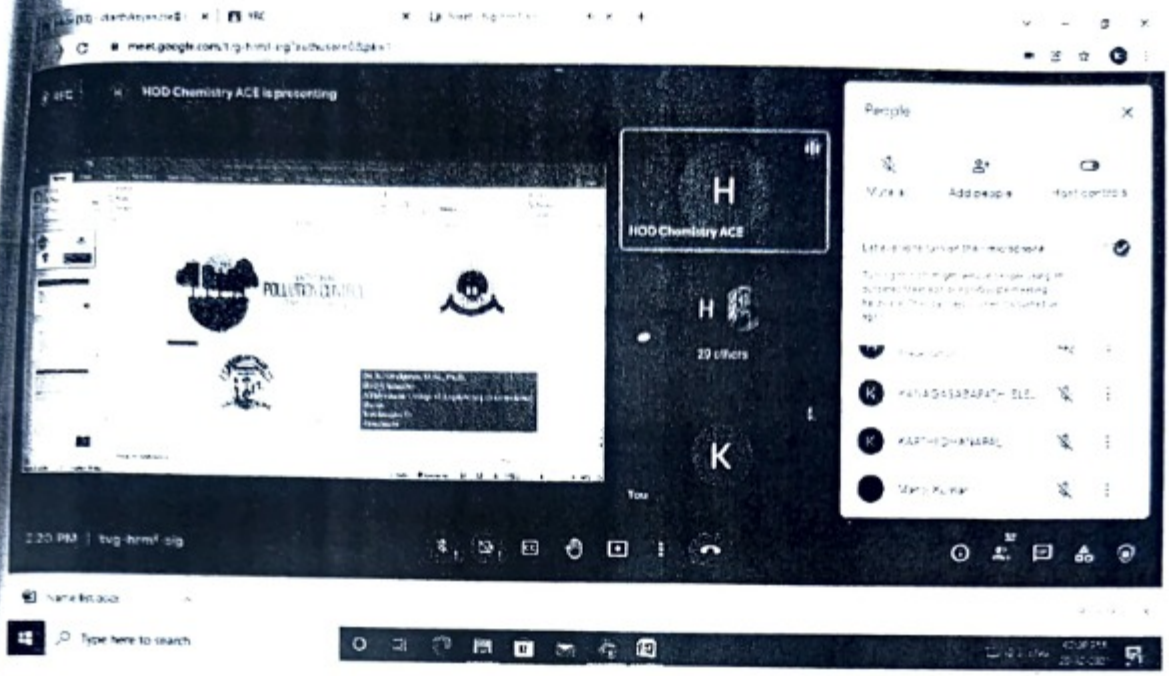

- Major forms of pollution include air pollution, light pollution, litter, noise pollution, plastic pollution, soil contamination, radioactive contamination, thermal pollution, visual pollution, and water pollution.
- Adverse air quality can kill many organisms, including humans. Ozone pollution can cause respiratory disease, cardiovascular disease, throat inflammation, chest pain, and congestion. Water pollution causes approximately 14,000 deaths per day, mostly due to contamination of drinking water by untreated sewage in developing countries.
- An estimated 500 million Indians have no access to a proper toilet, Over ten million people in India fell ill with waterborne illnesses in 2013, and 1,535 people died, most of them children. Nearly 500 million Chinese lack access to safe drinking water. A 2010 analysis estimated that 1.2 million people died prematurely each year in China because of air pollution.
- Noise pollution induces hearing loss, high blood pressure, stress, and sleep disturbance. Mercury has been linked to developmental deficits in children and neurologic symptoms. Older people are majorly exposed to diseases induced by air pollution. Those with heart or lung disorders are at additional risk. Children and infants are also at serious risk. Lead and other heavy metals have been shown to cause neurological problems. Chemical and radioactive substances can cause cancer and as well as birth defects.

- Air pollution is the contamination of air due to the presence of substances in the atmosphere that are harmful to the health of humans and other living beings, or cause damage to the climate or to materials. There are many different types of air pollutants, such as gases (including ammonia, carbon monoxide, sulfur dioxide, nitrous oxides, methane, carbon dioxide and chlorofluorocarbons), particulates (both organic and inorganic), and biological molecules. Air pollution can cause diseases, allergies, and even death to humans.

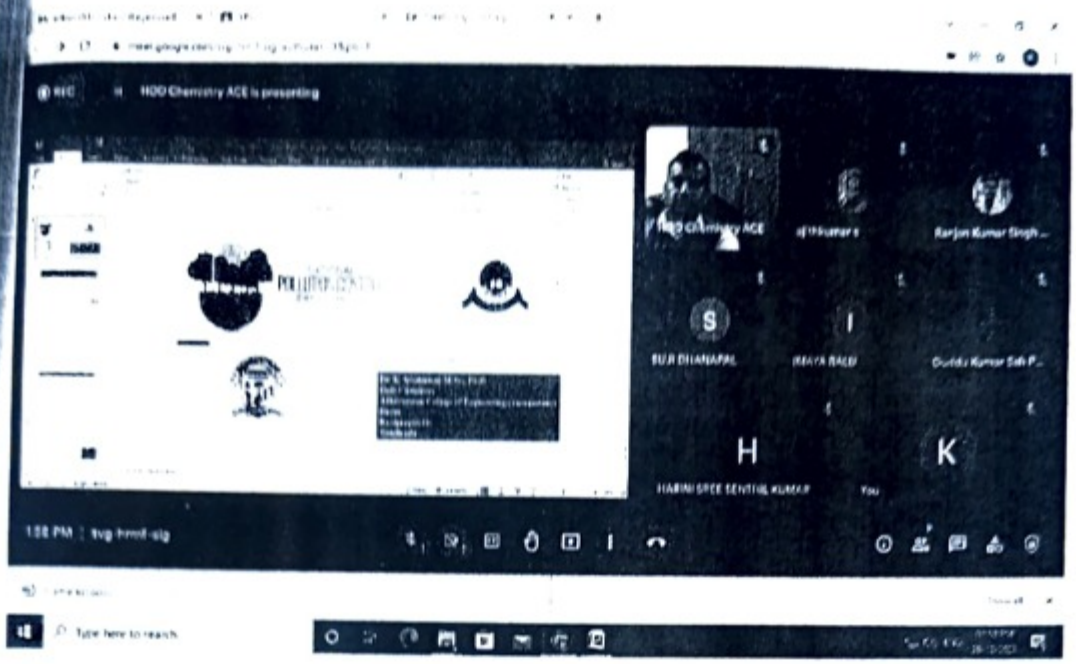

- It can also cause harm to other living organisms such as animals and food crops, and may damage the natural environment (for example, climate change, ozone depletion or habitat degradation) or built environment (for example, acid rain). Both human activity and natural processes can generate air pollution.

REPORT

S.No	Date	Name of the activity	Place of activity
1.	05.01.2022	WORLD BRAILLE DAY	Online Mode

Objective:

The objective of World Braille Day is to emphasis upon the importance of accessibility and independence for people who are blind or visually impaired.

Programme:

R.Premnath,B.E, Business Development Manager, Securax technologies,graced the occasion by delivering his speech on Barriers of blind people in today's world on account of " WORLD BRAILLE DAY".

World Braille Day 2022: World Braille Day is observed annually on January 4 to highlight the significance of Braille as a means of communication for blind people and those who are partially sighted. **World Braille Day 2022** has been marked by the United Nations since 2019. World Braille Day is also celebrated globally to mark the birth anniversary of Louis Braille.

He was a French educator who invented the Braille System after being blinded at a very young age. Before the Barille system, the blind and visually impaired people used the Hauy System which was a Latin system designed on thick paper or leather.

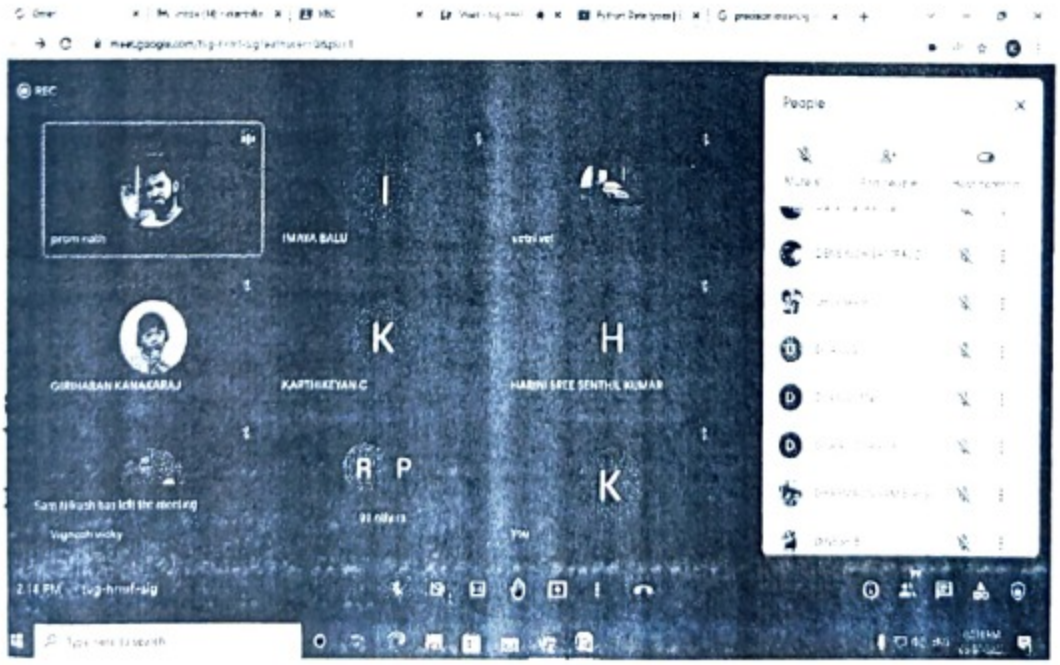

However, the System allowed the people to read but not write. The lack of technicality of the Hauy System led Louis Braille to develop a user-friendly Braille System.

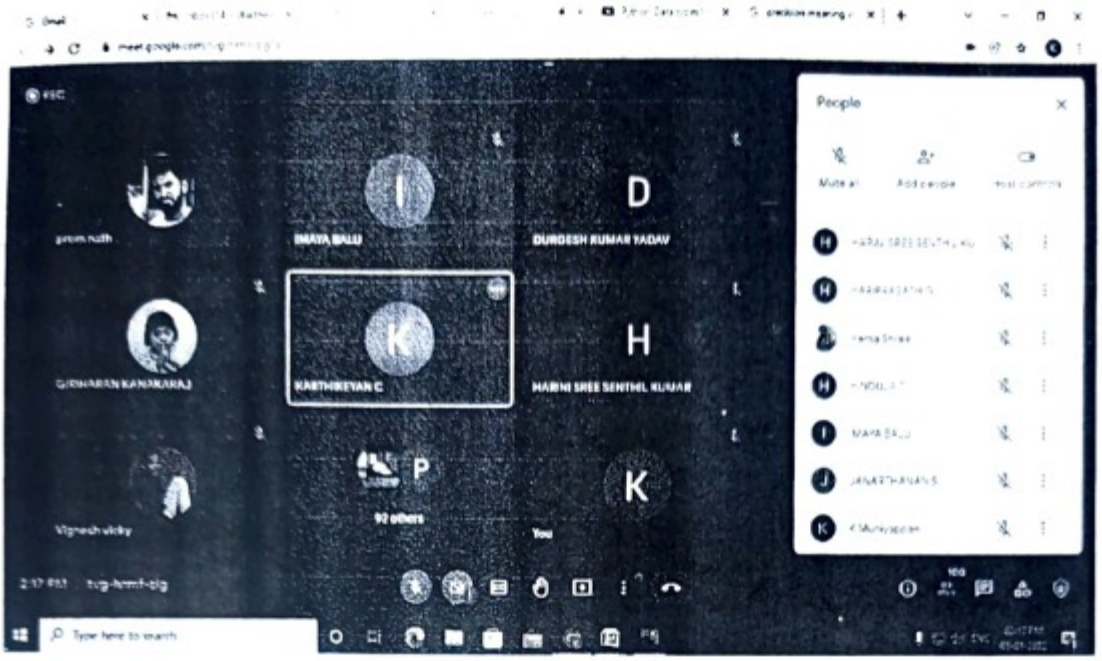

World Braille Day 2022 is observed to raise awareness of the significance of Braille as a means of communication with a full realization of the human rights for partially sighted or blind people.

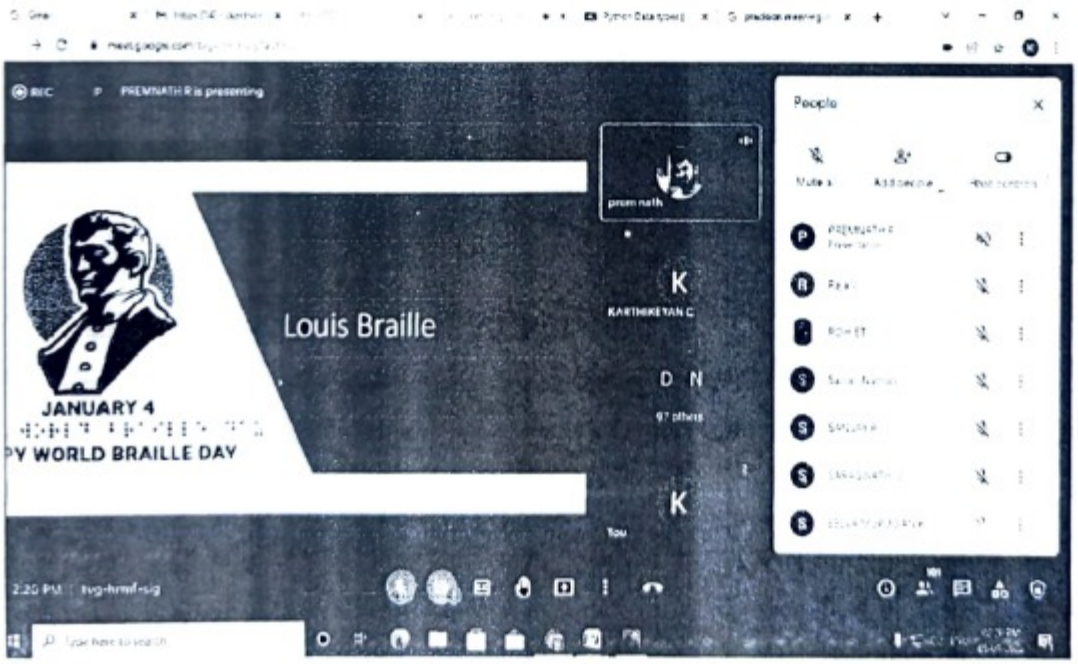

Braille Day provides an opportunity to facilitate discussions on the subject of the Rights of Persons with Disabilities Act, Prevention, Identification as well as the rehabilitation of the eyes disease. World Braille Day also brings to attention the difficulties faced by blind and partially sighted people in their day-to-day life. Braille Day also highlights the negligence practiced by the authorities towards blind people.

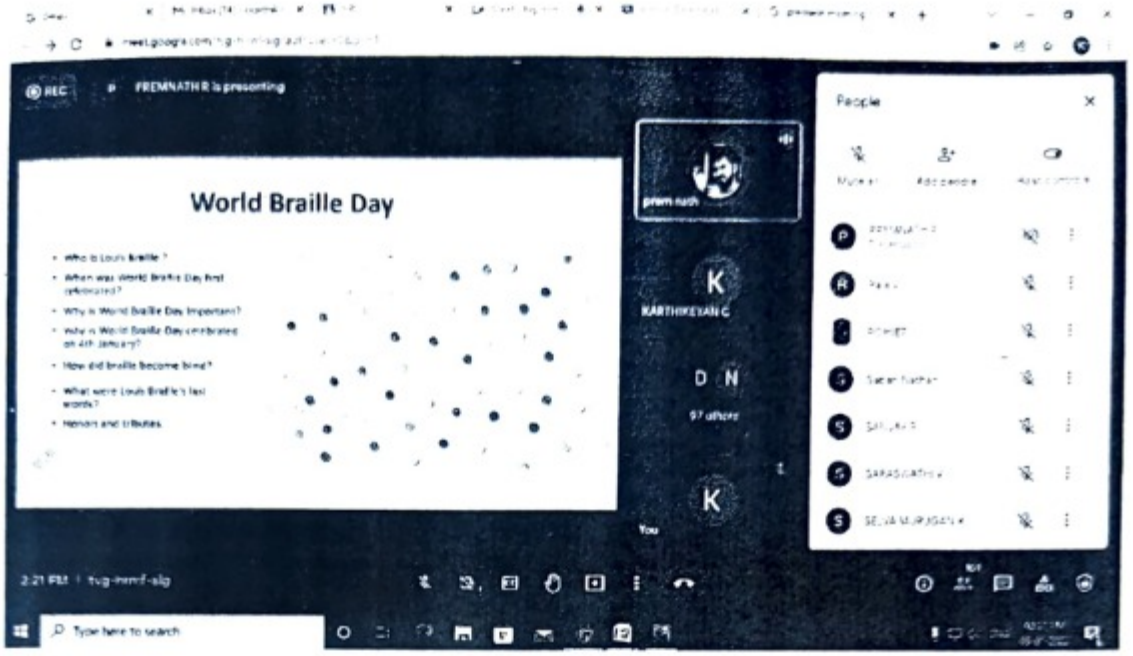

As per the report by the World Health Organisation, visually impaired people have been experiencing higher poverty rates and end up with a lifetime of inequality. The problem has particularly increased during the pandemic.

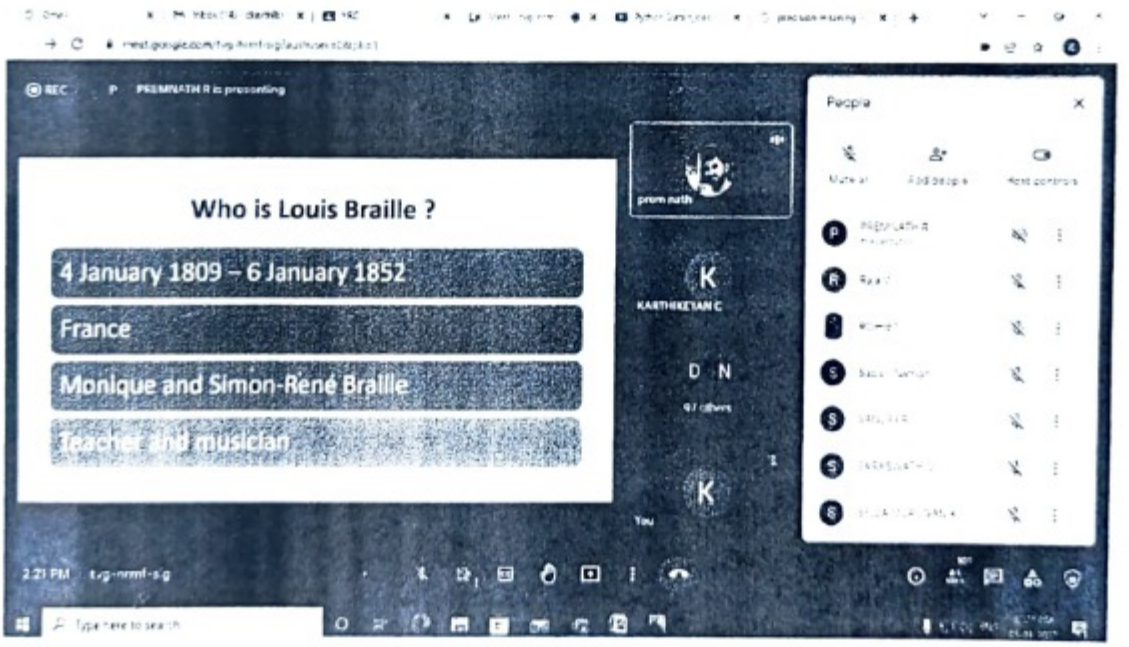

The COVID-19 pandemic has also revealed that how significant it is to produce essential information in an accessible format, including in audible and Braille format. The absence of such provisions can lead to a higher risk of contamination for visually impaired people because of a lack of access to the precautions and guidelines.

Objective of the Activity	Leadership is to bring the diverse group of people together towards a common goal.		
Outcome of the Activity	Students will develop an understanding of change processes and be able to think critically about obstacles to change.		
Coordinator of the Programme	Mr.C.Karthikeyan, AP/CSE		

Entrepreneurship Development Cell, Sengunthar Engineering College organized a Seminar on "**LEADERSHIP QUALITIES ON SUCCESSFUL ENTREPRENEUR**" on **FEBRUARY 21, 2022** at 3.00 p.m. The speaker of the webinar was an eminent personality **Dr.V.Raja M.E,MBA,Ph.D.** who is running the company of "**Admire Solution Software Development &Industrial Automation**" at palayapalayam,perundurai road.

The webinar was organized under the guidance of Dr.M.Selvakumar, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

Dr.V.Raja M.E,MBA,Ph.D. was our Keynote Speaker elucidated on how to be an entrepreneur focusing on core areas of the **Leadership Qualities on Successful Enterpreneur**. Entrepreneurial leadership involves organizing and motivating a group of people to achieve a common objective through innovation, risk optimization, taking advantage of opportunities, and managing the dynamic organizational environment.

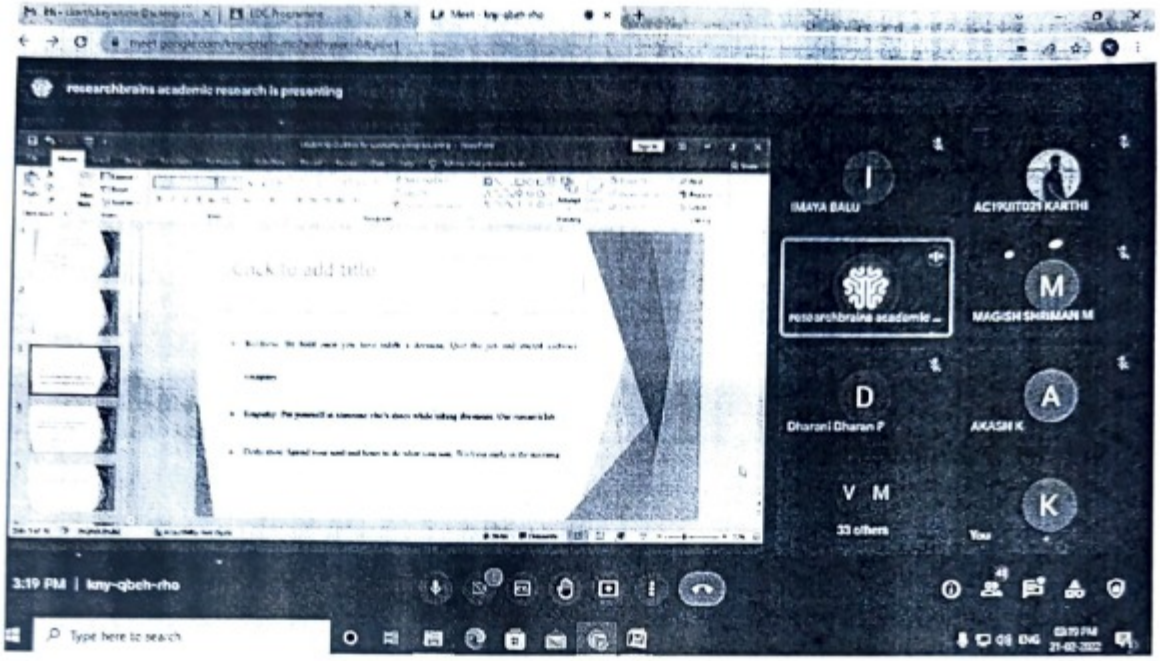

He explained the following things:

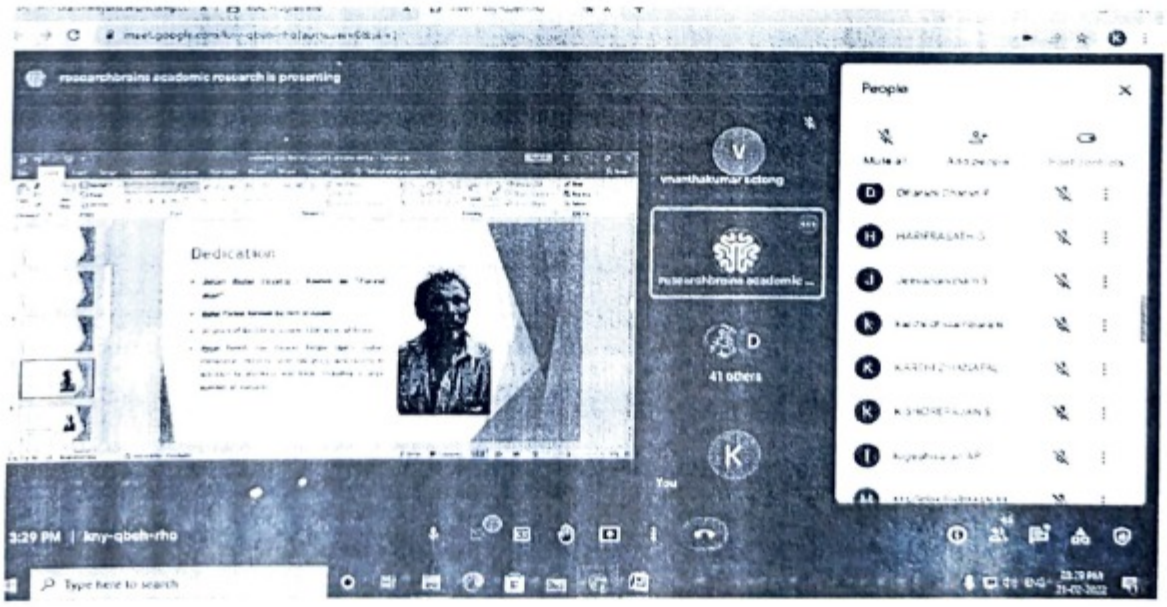

1. **Dedication**
2. **Empathy**
3. **Boldness**

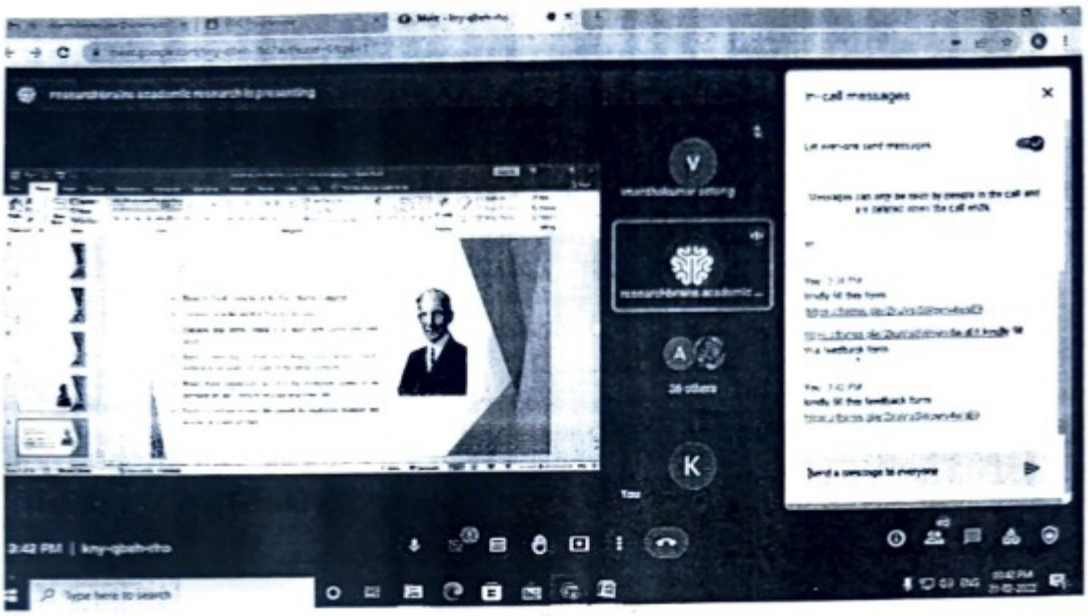

The session was great and motivates the students.

The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by **SUJI.D /CSE**

More than 140 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

Outcome of the Activity	Design Thinking allows us to adopt a human-centred perspective in creating innovative solutions while also integrating logic and research.		
Coordinator of the Programme	Mr.C.Karthikeyan, AP/CSE		

Entrepreneurship Development Cell, Sengunthar Engineering College organized a Webinar on "DESIGN THINKING ,CRITICAL THINKING AND INNOVATION DESIGN" on **FEBRUARY 21, 2022** at 11.00 a.m. The speaker of the webinar was an eminent personality **RAMKUMAR SARANGAPANI** who is working in the the concern of " **Cognizant Technology Solutions as sr.Associate Project Engineer & Quality Assurance.**

The webinar was organized under the guidance of Dr.M.Selvakumar, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

RAMKUMAR SARANGAPANI was our Keynote Speaker elucidated on to focusing on core areas of the " Design thinking , Critical thinking and Innovation design.

Design thinking is a recently emerging powerful process of problem solving that begins with understanding the requirements of the customer which have largely gone unaddressed by the existing companies. This process has lead to opening new doors which has given an impetus to drive innovation that encompasses concept development, applied creativity, prototyping, and experimentation. When design thinking techniques are applied to business, the success rate for innovation improves in leaps and bounds. **RAMKUMAR SARANGAPANI** with his immense knowledge gave his guidance to a few students who required inputs into the conduct of their own businesses.

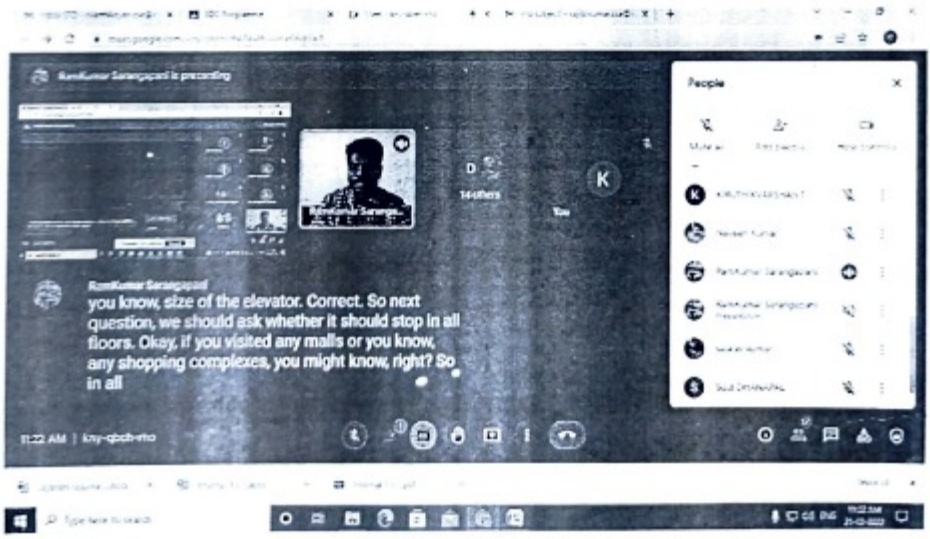

He explained following :
What are the benefits of innovation and design thinking programs?

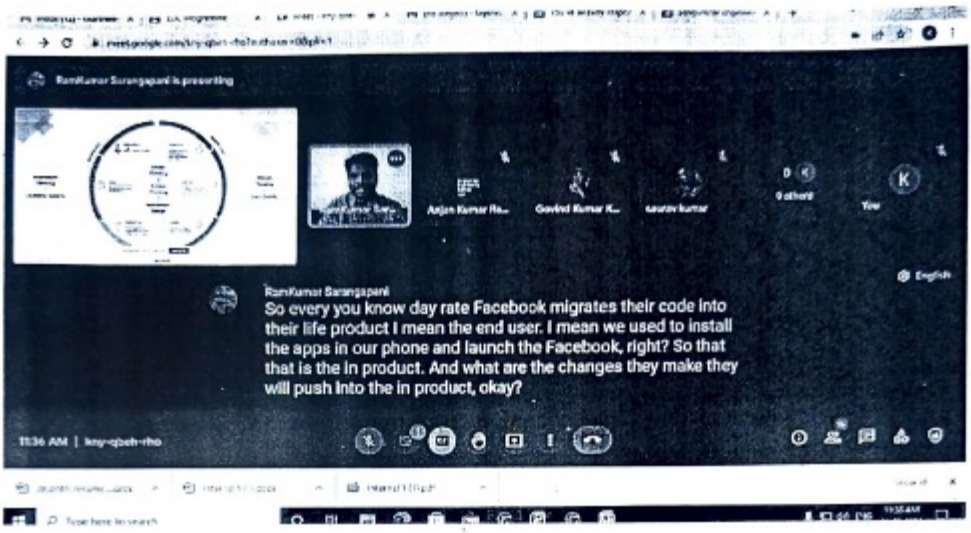

Different impacts are seen through different organizations. Innovative companies learn new techniques for working together, idea generating and processing, and a new way of thinking about the process of innovation. Organizations who might not have thought of their company as being in the innovative spectrum are shown that innovation has a place in *every* company. Their mindsets are shifted towards being more interactive and collaborative.

The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by student **SUJI.D /CSE**

More than 140 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

	Ms.R.Monisha	Front end development associate, Accenture, Bangalore	88380 56206
Participants	**Branch / Class / Section**	**Total**	**Total participants**
Students	CSE, EEE, ECE, CIVIL & Mech (II, III & IV Year)	150	200
Faculty	All Departments	50	
Coordinators	Mr. N.Thiru Senthil Adhiban, AP/Mech Mr.C.Mohan Kumar, AP/Mech Mr.M.Arun Kumar, AP/ECE Mr.A.Tamil Selvan, AP/EEE Mr.M.Soundar Rajan, AP/Civil Mr.C.Karthikeyan, AP/CSE Mr.K.Gayathri,AP/MBA		
Objective of the Activity	To encourage the teachers and the students to explore and do research activities. To teach the strategy to uncover something new.		
Outcome of the Activity	To understand the different way of looking at problems and solving them. To develop students creativity and the problem solving skills.		
Coordinator of the Programme	Mr.C.Karthikeyan, AP/CSE		

Entrepreneurship Development Cell, Sengunthar Engineering College organized a Webinar on "PROCESS OF INNOVATION DEVELOPMENT & TECHNOLOGY READINESS" on **FEBRUARY 25, 2022** at 3.00 p.m. The speaker of the webinar was an eminent personality **Ms.R.Monisha** who is working in the the concern of "**Front end development associate, Accenture, Bangalore**

The webinar was organized under the guidance of Dr.M.Selvakumar, Vice President - IIC and Mr. N.Thiru Senthil Adhiban, Chief Coordinator – IIC.

Ms.R.Monisha was our Keynote Speaker elucidated on to focusing on core areas of the

"Technology readiness Level"

The following topics are covered by Speaker.

- Process Innovation in Development
- Idea Generation and mobilization
- Advocacy and screening

Innovation

Organizations have several options to increase their competitiveness, they can strive for price leadership or develop a strategy of differentiation. In both cases, innovation is essential.

- Companies that choose price leadership must secure their long-term competitiveness by developing innovative, highly efficient processes. Process optimization and continuous improvement in terms of costs are important for them.
- Companies that strive for a differentiation strategy need innovation to develop unique distinguishing features to their competitors.
- Many start-ups launch their activities by developing an innovative product or service.

Continuous innovation is, therefore, crucial for all companies. The main difference is in the focus of the innovation strategy, which varies considerably from company to company.

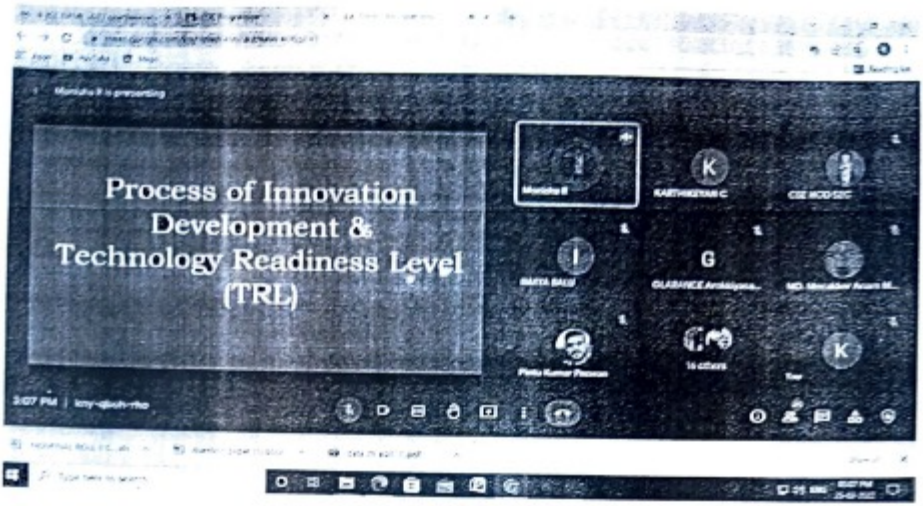

Idea Generation and Mobilization:

New Ideas are created during idea generation.successful idea generation should involve pressureto compete and the freedom to explore.

Mobilization occurs when the idea is moved to a different logical or physical location.

The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by student **SUJI.D /CSE**

More than 140 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

Entrepreneurship Development Cell, Sengunthar Engineering College organized a Webinar on "**Problem solving on Ideation Workshop**" on **FEBRUARY 25, 2022** at 11.00 a.m. The speaker of the webinar was an eminent personality **Dr.R.Umamaheshwari M.E,Ph.D** who is working as the Professor & Head of CSE Department at Gnanamani college of technology.

The webinar was organized under the guidance of Dr.M.Selvakumar, Vice President - IIC and Mr. N Thiru Senthil Adhiban, Chief Coordinator – IIC.

Dr.R.Umamaheshwari M.E,Ph.D was our Keynote Speaker elucidated on to focusing on core areas of the "**Problem solving on Ideation Workshop**"

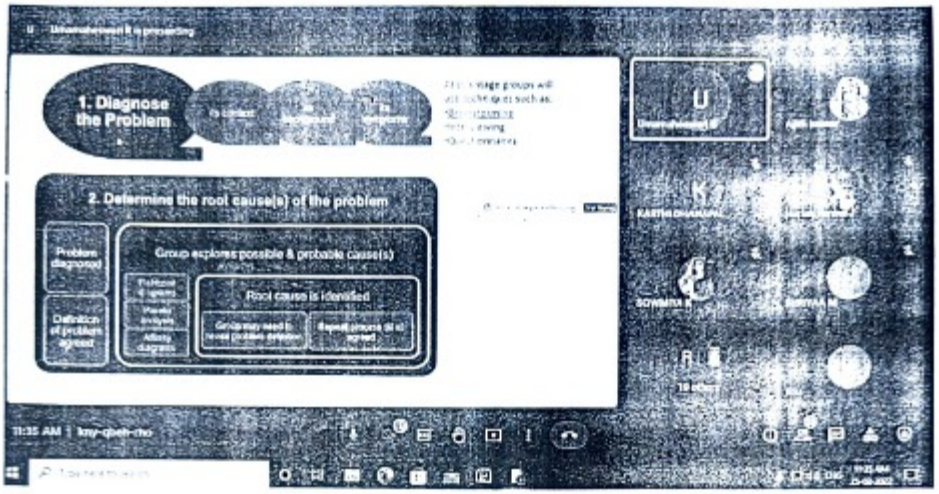

The session began with the welcome address for the resource person. He began with the importance of problem solving skills and its intricacies in one's life and explained what differentiated the successful people from those who failed, and the reason-(ignorance to understand problem and its solution.) He explained competencies which are required to fix the problem that would help the individual to play all his roles successfully, both at personal and professional front. He also explained the steps tc solve problem &emphasized that we should not allow the negative thoughts to escalate and in fact deviate and change its directions by thinking of all possible solutions.

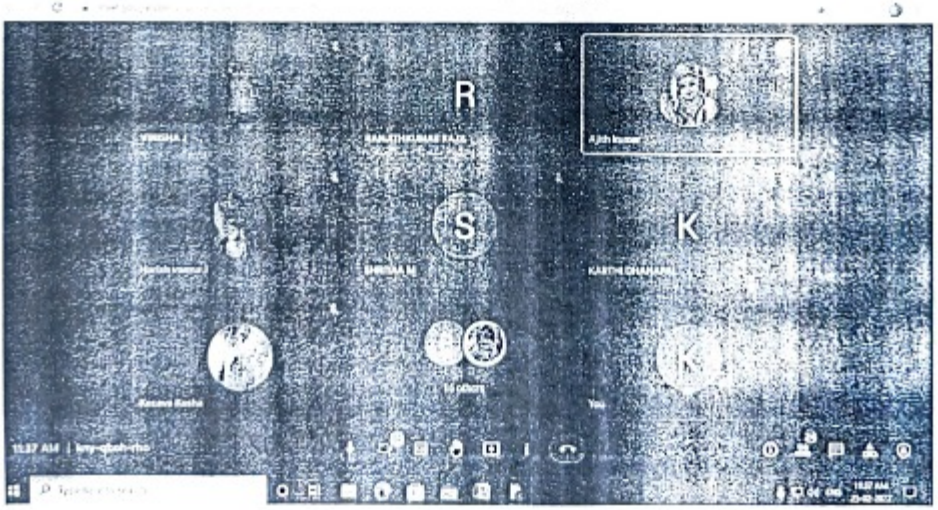

The important aspects covered by the speaker during the workshop were

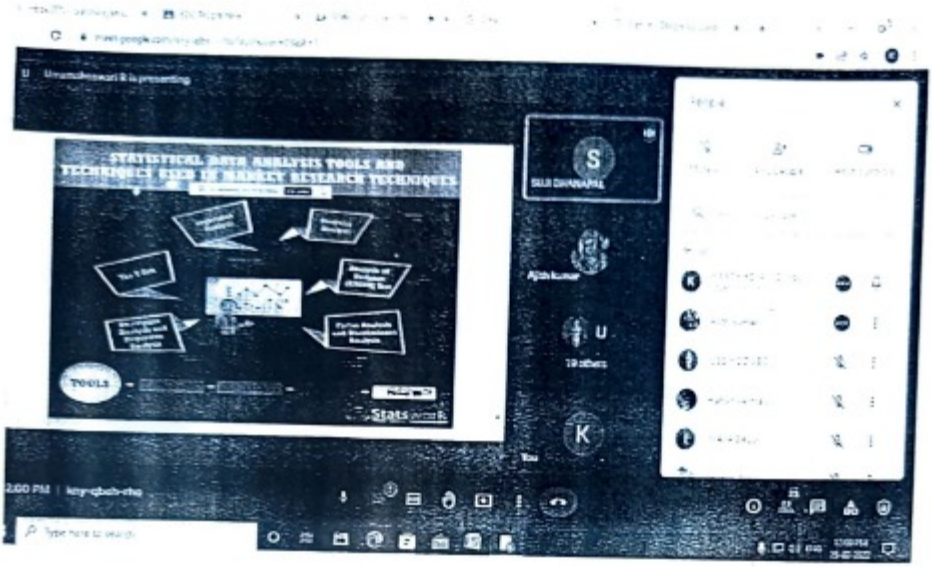

1. The concept of Entrepreneurship
2. Importance of innovation and idea generation
3. Importance of problem solving
4. The skills, characteristics, attributes and functions of Entrepreneurs
5. The importance of creative thinking and strategic thinking

The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation, patents and its importance. The webinar ended with vote of thanks given by student **SUJI.D /CSE**

More than 140 participants from various Institutions and industries attended the seminar. Participants enjoyed the webinar very much.

1. Diagnose the Problem
2. Determining the root cause(s) of the problem
Problem diagnosed
Definition of problem agreed
Group explores possible & probable cause(s)
Root cause is identified

Report for the RRC & YRC Programme (2021 - 2022)

S.No	Date	Name of the activity	Place of activity
1	27.11.2021	ONLINE WEBINAR ON ACCESS TO DIABETES CARE	ONLINE MODE

World Diabetes Day was launched in 1991 by the International Diabetes Federation and the World Health Organization (WHO) in response to the rapid rise of diabetes around the world. Diabetes mellitus (DM), more often just called Diabetes, is a group of metabolic lifestyle disorders and diseases in which a person has high blood sugar levels over an extended period of time. This is either because the islets of Langerhans, which are found in the pancreas, do not produce the required glucose-regulating peptide-hormone or, in some cases, because the cells of the body cannot or do not respond to the glucose-regulating hormone. Diabetes is also alternatively known as high blood glucose, a condition in which the body doesn't properly process or make use of food as fuel or as a source of energy. There are a variety of physical symptoms that are associated with overly high blood sugar levels in the body. Some of these symptoms include increased levels of thirst, a frequent need to urinate and increased levels of hunger.

Dr.R.M.Manoj MBBS., Medical Officer at King's Institute Guindy, the occasion by delivering his speech will serve to amplify the message about the importance of increasing access to diabetes care to improve diabetes management, prevent complications".

There are three known main types of diabetes mellitus, namely:

Type 1 diabetes, Type 2 diabetes, and Gestational diabetes:

- Type 1 Diabetes mellitus comes about as a direct result of the pancreas not manufacturing the glucose-regulating hormone. This particular form of diabetes was previously called "juvenile diabetes". To date, the cause of type 1 diabetes has yet to be discovered and remains unknown.
- Type 2 Diabetes mellitus begins with resistance to the pancreatic produced hormone and the cells of the body failing to respond to the hormone. Progression of the disease may cause a lack of the hormone to also develop. This form of diabetes was previously known as "adult-onset diabetes".
- Out of all three types of diabetes, the most common is Gestational diabetes. This particular form of diabetes is brought on by overly excessive body weight and [illegible]

lack of or severely insufficient physical exercise. It is also known to occur in pregnant women, who have no previous history of diabetes but have developed excessively high blood sugar levels whilst going through their pregnancy. Diabetes can cause a vast number of chronic health complications if left untreated. Some of these complications can be very severe. They can include diabetic ketoacidosis - when this happens the body manufactures high levels of blood acids called ketones, breaking down fat and muscle for energy. The more ketones in the blood, a person becomes, left untreated it can lead to swelling of the brain, excessive dehydration and coma. Hyperosmolar hyperglycemic state or HHS, here high blood sugar levels create high osmolarity but without serious ketoacidosis, its symptoms include: bodily weakness, dehydration, leg cramps and visual impairment. Death is also a possibility of untreated diabetes.

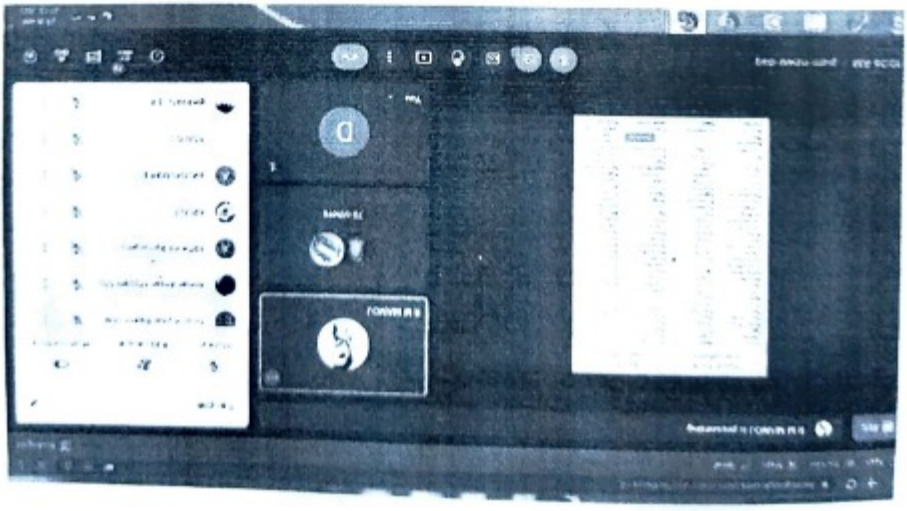

How can we prevent diabetes naturally:

Start with these 6 tips:

1. Cut sugar and refined carbohydrates from your diet. Eating foods high in refined carbohydrates and sugar increases blood sugar and insulin levels, which may lead to diabetes over time.
2. Quit smoking if you are a current tobacco user.
3. Watch your portions.
4. Drink water.
5. Eat fiber.

POST PROGRAM REPORT

S.No	Date	Name of the activity	Place of activity
1.	28.12.2021	Life Skills Development	Online Mode

Department of Management Studies, Sengunthar Engineering College organized Online Webinar on "LIFE SKILLS DEVELOPMENT" on 28.12.2021 at 2.00 PM. The speaker of the Program was a renowned personality Mr. S. JAIKUMAR, M.B.A., M.Phil., Assistant Professor, Sengunthar Engineering College, Tiruchengode, Namakkal District.

The Program was organized under the guidance of Ms. K. Gayathri, Assistant Professor, Department of Management Studies, Sengunthar Engineering College, Tiruchengode.

Then Mrs. K. GAYATHRI. Assistant Professor, Department of Management Studies welcomed all participants on the behalf of Department of Management Studies and then Presidential Address was given by Prof. A. Baladhandapani, M.A., M.Phil. Secretary & Correspondent, Sengunthar Institutions, after that Dr. K. UMADEVI, M.Tech., Ph.D., Principal, Sengunthar Engineering College gave the Principal Address. After the Principal Address Er. A.B. Madhan, M.E., Chief Executive Officer, Sengunthar Institutions and Er. Aravind Thirunavukkarasu, M.C.A., M.E., Director Corporate Relations & Training, Sengunthar Institutions gave the Felicitation Address.

Then Ms. V. PRIYADHARSHINI, II Year – M.B.A. Department of Management Studies gave the introduction to the chief guest and explored the achievements and areas of interest of our eminent chief guest.

Mr. S. JAIKUMAR, M.B.A., M.Phil., was our Chief Guest for the Online Webinar on "LIFE SKILLS DEVELOPMENT". The term 'Life Skills' refers to the skills you need to make the most out of life. Any skill that is useful in your life can be considered a life skill. Tying your shoe laces, swimming, driving a car and using a computer are, for most people, useful life skills. Broadly speaking, the term 'life skills' is usually used for any of the skills needed to deal well and effectively with the challenges of life.

It should therefore be clear that everyone will potentially have a different list of the skills they consider most essential in life, and those that they consider unnecessary. Someone living in a remote rural community might put driving a car high on their list of essential skills. A Londoner or New Yorker, however, would probably rank that pretty low.

Communication and interpersonal skills broadly describes the skills needed to get on and work with other people, and particularly to transfer and receive messages either in writing or verbally and Decision-making and problem-solving skills describes the skills required to understand problems, find solutions to them, alone or with others, and then take action to address them and creative thinking and critical thinking describes the ability to think in different and unusual ways about problems, and find new solutions, or generate new ideas, coupled with the ability to assess information carefully and understand its relevance. Self-awareness and empathy are two key parts of emotional intelligence. They describe understanding yourself and being able to feel for other people as if their experiences were happening to you. Assertiveness and equanimity, or self-control describes the skills needed to stand up for yourself and other people, and remain calm even in the face of considerable provocation. Resilience and ability to cope with problems describes the ability to recover from setbacks, and treat them as opportunities to learn, or simply experiences.

The Program was further enlightened by the interesting questions answer session in the last which gave true colors to the program and gave chance to the students to speak their doubts regarding the communication and its importance. Finally the Program ended with vote of thanks given by Ms. S. RENUKA DEVI, II Year – M.B.A Department of Management Studies, Sengunthar Engineering College. Tiruchengode, Namakkal.

Totally 100 participants of Sengunthar Engineering College attended the seminar and all the Participants enjoyed the program very much.

POST PROGRAM REPORT

S.No	programme	Name of the activity	Place of activity
1.	2021-2022	Spoken and Written Communication	MBA Seminar Hall

Department of Management Studies, Sengunthar Engineering College organized a program on "SPOKEN AND WRITTEN COMMUNICATION" on 24.06.2021. The speaker of the Program was a renowned personality Mrs. S. Umamaheshwari, Assistant Professor, Sengunthar Engineering College, Tiruchengode, Namakkal District

The Program was organized under the guidance of Ms. K. Gayathri, Assistant Professor, Department of Management Studies, Sengunthar Engineering College, Tiruchengode.

Then Ms. SRI VIDHYA of Ist Year – M.B.A. welcomed all participants on the behalf of Department of Management Studies and then introduced the resource person by Mrs. S. Umamaheshwari, Assistant Professor, Sengunthar Engineering College, Tiruchengode, Namakkal District

Then Presidential Address was given by Prof. A. Baladhandapani, M.A., M.Phil. Secretary & Correspondent, Sengunthar Institutions, after that Dr. K. UMADEVI, M.Tech., Ph.D., Principal, Sengunthar Engineering College gave the Principal Address

After the Principal Address Er. A.B. Madhan, M.E., Chief Executive Officer, Sengunthar Institutions and Er. Aravind Thirunavukkarasu, M.C.A., M.E., Director Corporate Relations & Training, Sengunthar Institutions gave the Felicitation Address

Then Mr.V.SARAVANAKUMAR, M.B.A.,M.Phil., Assistant Professor, Department of Management Studies gave the introduction to the chief guest and explored the achievements and areas of interest of our eminent chief guest.

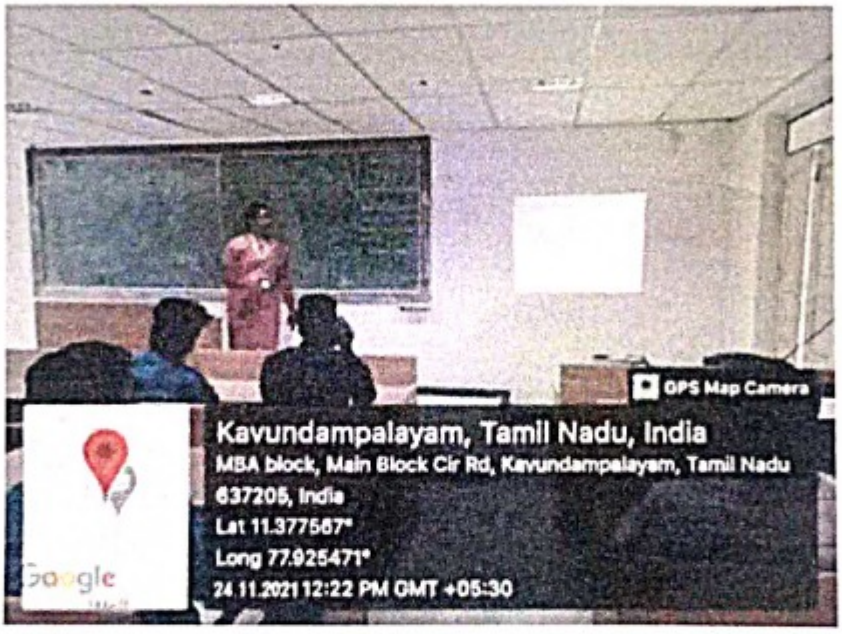

Mrs. S. UMA MAHESWARI., M.Sc., M.com. M.B.A., M.Phil., (Ph.D) was our Chief Guest for the program on "SPOKEN AND WRITTEN COMMUNICATION". Communication is a broad field that covers many different means of spreading and transferring messages. There are many forms of communication that focus on a specific means or aspect of communication. Two common forms that are often compared are oral communication and written communication. Oral communication takes place by speaking which includes basic conversations, as well as speeches and meetings.

Thereby written communication takes place in various formal environments like offices, educational institutions and government sectors etc. for transferring the information. This can be typed on an electronic device, such as an email on a computer, or handwritten, such as a note or a letter. Both oral communication and written communication are used on a daily basis. While both may convey the same messages, they may be used for different purposes.

Good verbal and written communications are an essential parameter to deliver and understand information quickly and accurately. Clear and precise communication helps in building trust and credibility. Oral communication is not just about speaking; it's also about listening and communicating. Communication in the workplace is important because it boosts employee morale, engagement, productivity, and satisfaction. Communication is also key for better team collaboration and cooperation. Ultimately, effective workplace communication helps drive better results for individuals, teams, and organizations.

The Program was further enlightened by the interesting questions answer session in the last which gave true colors to the program and gave chance to the students to speak their doubts regarding the communication and its importance. Finally the Program ended with vote of thanks given by Mrs. K. GAYATHRI, B.Tech. M.B.A., M.Phil. Assistant Professor, Department of MBA, Sengunthar Engineering College. Tiruchengode, Namakkal

Totally 52 participants of Sengunthar Engineering College attended the seminar and all the Participants enjoyed the program very much.

POST PROGRAM REPORT

S.No	Date	Name of the activity	Place of activity
1.	03.02.2022	Yoga and Health Management	Online Mode

Department of Management Studies, Sengunthar Engineering College organized Online Webinar on "YOGA AND HEALTH MANAGEMENT" on 03.02.2022 at 12.30 PM. The speaker of the Program was a renowned personality Sri. Ekanath Baliga Sri.Pathanjali yoga Shiksahana Prathistana Mangalore.

The Program was organized under the guidance of Ms. K. Gayathri, Assistant Professor, Department of Management Studies, Sengunthar Engineering College, Tiruchengode.

Then Ms. S. Jaya of II Year – M.B.A. Department of Management Studies welcomed all participants on the behalf of Department of Management Studies and then Presidential Address was given by Prof. A. Baladhandapani, M.A., M.Phil. Secretary & Correspondent, Sengunthar Institutions, after that Dr. K. UMADEVI, M.Tech., Ph.D., Principal, Sengunthar Engineering College gave the Principal Address. After the Principal Address Er. A.B. Madhan, M.E., Chief Executive Officer, Sengunthar Institutions and Er. Aravind Thirunavukkarasu, M.C.A., M.E., Director Corporate Relations & Training, Sengunthar Institutions gave the Felicitation Address.

Then T.NAVEEN KUMAR, II Year – M.B.A. Department of Management Studies gave the introduction to the chief guest and explored the achievements and areas of interest of our eminent chief guest.

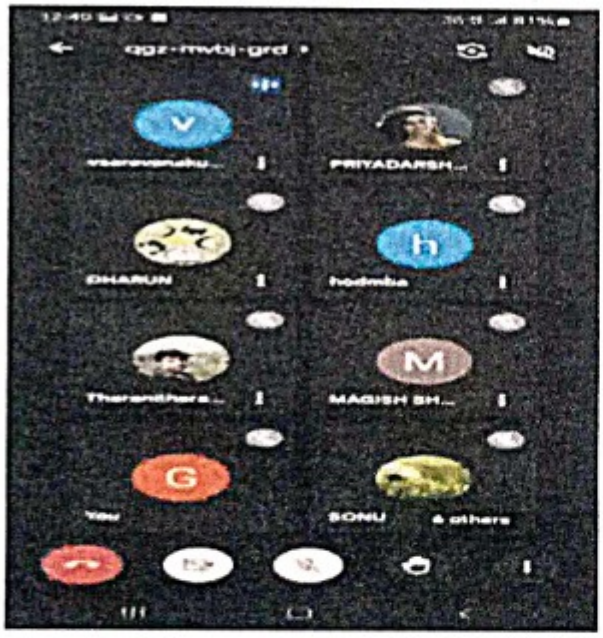

Sri. Ekanath Baliga Sri.Pathanjali yoga Shiksahana Prathistana Mangalore. was our Chief Guest for the Online Webinar on "YOGA AND HEALTH MANAGEMENT". Yoga is a science as well as an art of healthy living. It is no way limited by race, age, sex, religion, caste, creed and any other boundaries and can be practiced by those who seek an education on better living and those who want to have a more meaningful life. Yoga is the surest way of complete health. Yoga is the science of life and the art of living. It is India's oldest scientific, perfect spiritual discipline. Yoga is a method of training the mind and body for discovering spiritual truths. Yoga is science of life, it offers us simple, easy remedies, techniques and methods of health and hygiene to assure physical and mental fitness with a minimum of time, effort and expense. Yoga is neither a sect nor

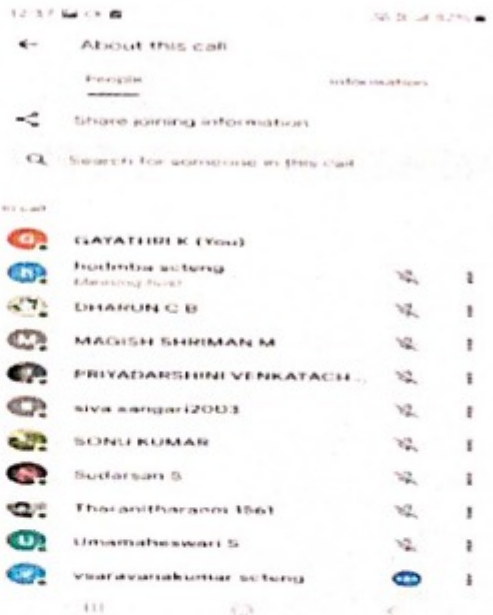

an ideology but a practical training of mind and body. Yoga is also a technique for achieving purest form of self-awareness, devoid of all thoughts.

Yoga is a mind and body practice. Various styles of yoga combine physical postures, breathing techniques, and meditation or relaxation. Yoga maintains that chakras are center points of energy, thoughts, feelings, and the physical body. According to yogic teachers, chakras determine how people experience reality through emotional reactions, desires or aversions, levels of confidence or fear, and even physical symptoms and effects. When energy becomes blocked in a chakra, it triggers physical, mental, or emotional imbalances that manifest in symptoms such as anxiety, lethargy, or poor digestion. Asanas are the many physical poses in Hatha yoga. People who practice yoga use asanas to free energy and stimulate an imbalanced chakra.

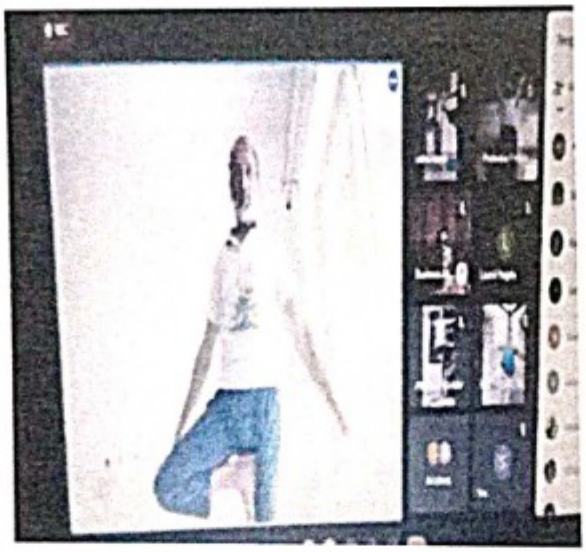

The Program was further enlightened by the interesting questions answer session in the last which gave true colors to the program and gave chance to the students to speak their doubts regarding the communication and its importance. Finally the Program ended with vote of thanks given by Ms. A. SWETHA, II Year – M.B.A Department of Management Studies, Sengunthar Engineering College. Tiruchengode, Namakkal.

Totally 76 participants of Sengunthar Engineering College attended the seminar and all the Participants enjoyed the program very much.

Memorandum of Understanding

Between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

This Agreement is made on **13.09.2021** between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

Sengunthar Engineering College (Autonomous) is a leading educational institute in **Tiruchengode** providing various Degree programs approved by AICTE, hereinafter referred as **INSTITUTE.**

And

EXTOLTECH SOLUTION having its office at **159, Amman Complex, Mettur Road, Erode - 639001. EXTOLTECH SOLUTION** specializes in software development on all Softwares, hereinafter referred as **COMPANY.**

1. Now therefore both the parties hereby agree as follows:

1.1 **COMPANY** will conduct **CAD, CAM, CAE, Software and Networking Courses** for students of **INSTITUTE** at Institute premises by providing specialized and certified Faculty Members

1.2 **Both parties** will create better awareness and products of all softwares for better employability of participants at **INSTITUTE**

1.3 **COMPANY** in consultation with **INSTITUTE**, will create and refine courses as per current software program, industry demands and accreditation requirements

1.4 **COMPANY** will support for final year students placements

1.5 Course fee & reimbursement will be as per **ANNEXURE – 1**

2. Responsibility of Company

2.1 Provide Faculty with requisite knowledge and experience in teaching the Courses. Company will ensure substitute faculty of similar specialization, as per requirement.

3. Responsibility of the Institute

3.1 Provide requisite infrastructure to conduct course, like Classrooms, Computer Hardare/Software, Computer Projector, black/white board, power, power backup and other necessary equipments.

3.2 **INSTITUTE** will register students in Course by adequate information to all relevant engineering streams.

3.3 **INSTITUTE** will collect the course fee or any other fee pursuant to this Agreement from participating students in advance. INSTITUTE will facilitate the collection of fees on behalf of students.

3.4 Reimburse fee as applicable to **COMPANY** as per agreed terms.

3.5 Ensure that all the participating students attend Course Classes as per schedule and all Required infrastructure is made available for uninterrupted classes.

3.6 Institute would ensure that all students are regular in attendance.

4. Duration for this Agreement

4.1 The duration of this Agreement shall be for a period of 5 years from the date of signing and If not renewed or amended in writing the same shall be considered as expired and/or terminated.

5. Termination

5.1 This agreement shall take effect immediately on the execution of these presents. This agreement can be terminated by any party by a written letter giving one month notice period.

5.2 Upon expiry of the notice period this agreement will be terminated & both the parties will settle their accounts within one month of termination of this agreement.

5.3 Any notice request or other communication required or permitted to be given or made under this agreement to INSTITUTE or COMPANY shall be in writing. Such notice or request shall have been given or made when it shall have been delivered by hand with a copy by facsimile to the party to which it is addressed at such party's address specified below or at such other address as such party shall have designed by notice to the party for giving such notice or making such request.

PROGRAMME CONTENT OR SYLLABUS

PROGRAMME TITLE: Seminar on "Introduction of Interpersonal Relations"

Academic Year: 2021-2022 Semester: ODD Date / Time: 02.07.2021 (01.30 pm to 02.30 pm)

Introduction of Interpersonal Relations

Creativity:

Connecting dots—that are seemingly unrelated—to generate original, useful solutions is an incredibly valuable skill in every student, regardless of what industry or country you're doing business in.

Persuasion:

Persuasion is convincing others to buy into your idea or a different way of doing things to build consensus or make a decision. It's one of the most powerful communication skills for students to have in their skill set.

Collaboration:

Students who can work effectively and efficiently to achieve a common goal—or influence others to the right end game.

Adaptability:

The only constant in life—and in business—is change. Students who thrive in a dynamic environment and bounce back quickly in the face of challenges are the ones who can handle anything that comes their way.

Emotional Intelligence:

Emotional intelligence is the ability to perceive, evaluate, and respond to your own emotions and the emotions of others.

Programme Title	**Seminar on "Artificial Intelligence: An Application Prospective" under Awareness of Trends in Technology**		
Resource Person(s)	**Name**	**Address**	**Contact Details**
1	Dr. P.Ponmurugan Head (R&D)	Sengunthar Engineering College, Tiruchengode – 637 205.	+ 91 96987 30088
Areas covered during the activity	• Importance and Categories of Artificial Intelligence. • Goals and Applications of Artificial Intelligence.		
Participants	**Branch / Class / Section**	**Total**	**Total Participants**
1) Students	B.E. (III & IV year)	48	53
2) Staffs	B.E. (ECE)	5	
		Actual Expenses for the Programme in Rs.	Nil
Consolidated Feedback Report	1) The Participants were introduced to Artificial Intelligence and Computer vision where they learned basics aspects of Artificial Intelligences and its applications. 2) After attending this seminar students have been equipped with a strong basics and innovative ideas in the domain of Artificial Intelligence and Machine learning which will help students to carry out research in AI and its sub field. 3) Participants were learned about how to build up deep learning networks for development of AI systems.

PROGRAMME CONTENT OR SYLLABUS

PROGRAMME TITLE: Awareness program on "Electricity Usage, Safety and First Aid"

Academic Year: 2021-2022 Semester: ~~ODD~~ / EVEN Date : 12.04.2022

Basics of Energy

1. Classification of energy- primary and secondary energy, commercial and noncommercial energy, non-renewable and renewable energy with special reference to solar energy, Capacity factor of solar and wind power generators.
2. Global fuel reserve
3. Energy scenario in India and state of U.P. Sector-wise energy consumption (domestic, industrial, agricultural and other sectors)
4. Impact of energy usage on climate

Energy Efficiency in Electrical Utilities

Pumps - Compressed Air System - Energy Conservation in HVAC and Refrigeration System – Lighting

Introduction to electrical safety, shocks and their prevention:

Terms and definitions, objectives of safety and security measures, Hazards associated with electric current, and voltage, who is exposed, principles of electrical safety, Approaches to prevent Accidents, scope of subject electrical safety. Primary and secondary electrical shocks, possibilities of getting electrical shock and its severity, medical analysis of electric shocks and its effects, shocks due to flash/ Spark over's, prevention of shocks, safety precautions against contact shocks, flash shocks, burns, residential buildings and shops

This course on 'Electricity and Safety Measures' will introduce you to electricity, from generation to transmission to cities/ towns, to distribution up to the end user. You will learn the elementary electrical, overview of electrical power system, Quality of electrical supply, general tools and tackle, Major substation equipment, Operation & maintenance practices for substation and transformer in the first part of this course. While the use of electricity is a boon to us, its misuse could lead to major accidents. We shall learn importance of earthing and guidelines for providing earthing arrangements, Protection of the electrical equipment for safe use of electricity, Important electricity rules related to safety in the second part of this course. While we do take all precautions to avoid the unforeseen, what if some accident does happen? You will be introduced to the basic safety measures. You shall learn about the essential First-Aid measures. Immediate First-Aid may save life. It is essential to restore the electrical system, at the earliest after any disaster; this is the issue of Disaster Management. All these aspects are covered under the third part of this course. As a common interest course, this course helps in building up your knowledge and skill on electrical power and safety.

Training Program Proposal

COVER LETTER

CL

Extol Tech Solution

From

06.09.2021

EXTOL TECH SOLUTION,

159, Amman Complex, 2nd Floor,

MetturRoad , Land Mark Near Hotel Regency,

Erode-638011.

To

The Principal,

Sengunthar Engineering College (Autonomous),

Tiruchengode – 637 205

Dear Sir,

Enclosed herewith is a formal proposal for the establishment of 4I- Institution Industry Instructor Interaction Adoption Program. The main objective of this is to help students connect with CAD/CAM/CAE/PPM/Software/Networking/Embedded/Multimedia Project Management Skills, thus bridging the gap between academic and the industry

I trust and agree that this collaborative project can make a genuine impact for the students in the field CAD/CAM/CAE/PPM/Software/Networking/Embedded/Multimedia through effective combination of monitoring, focused curriculum and career exploration for through assessment of opportunities in the marketplace and a detailed plan. I look forward to the possibility of working with you to make 4I a success in the coming months and years. Along with this , list of the courses and fees.

Kindly go through and opt which suit you best. Hope you will get impressed and proposed with us. I am eager very eagerly waiting for your response and contact us as soon as possible at (0424) 4031055, 9965631055,9087179955.

Thanks & Regards,

Project Manager

EXTOL TECH SOLUTION ETS ERODE

KH

KEY HIGHLIGHTS

- In house technical expertise
- Helping students connect with 21st Century skills.
- Providing quality education at reasonable cost.
- Fostering innovative learning in the academic environment
- Coming resources to help drive change in education
- Placement assistance
- Scholarship
- New product updates through technical seminars
- Increase in employment opportunities.
- Best Curriculum to emphasize on the topics which are developed at par with the industry standards.
- Project will submit after completion of the course.
- To produce skilled manpower
- To produce ability to work as part of a Industrial team.
- To strong analytical mind
- Increased team efficiency by implementing Agile methodology
- Bridging the gap between Academia and Industry.

Sir,

Sub: Requesting permission for conducting value added courses - Reg.

We would like to bring to your kind consideration to accord approval to conduct the value added courses to the B.E. - III year (fifth semester) students of all departments as per the curriculum. In this connection, MoUs are to be made between our Institution and Industries as Training Partner mentioned against respective Departments for mutual benefits on 13.09.2021.

INDUSTRY	DEPARTMENT	COURSE
EXTOLTECH SOLUTION, ERODE	CIVIL	STAAD PRO
EXTOLTECH SOLUTION, ERODE	CSE	WEB TECHNOLOGY
EXTOLTECH SOLUTION, ERODE	ECE	MICRO PYTHON
C-CUBE TECHNOLOGIES, ERODE	EEE	ELECTRICAL CAD
EXTOLTECH SOLUTION, ERODE	MECH	ANSYS

We request your permission for the same.

Memorandum of Understanding

Between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

This Agreement is made on **13.09.2021** between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

Sengunthar Engineering College (Autonomous) is a leading educational institute in **Tiruchengode** providing various Degree programs approved by AICTE, hereinafter referred as **INSTITUTE.**

And

EXTOLTECH SOLUTION having its office at **159, Amman Complex, Mettur Road, Erode - 639001. EXTOLTECH SOLUTION** specializes in software development on all Softwares, hereinafter referred as **COMPANY.**

1. **Now therefore both the parties hereby agree as follows:**

1.1 **COMPANY** will conduct **CAD, CAM, CAE, Software and Networking Courses** for students of **INSTITUTE** at Institute premises by providing specialized and certified Faculty Members.

1.2 **Both parties** will create better awareness and products of all softwares for better employability of participants at **INSTITUTE.**

1.3 **COMPANY** in consultation with **INSTITUTE**, will create and refine courses as per current software program, industry demands and accreditation requirements.

1.4 **COMPANY** will support for final year students placements.

1.5 Course fee & reimbursement will be as per **ANNEXURE – 1**

2. **Responsibility of Company**

2.1 Provide Faculty with requisite knowledge and experience in teaching the Courses. Company will ensure substitute faculty of similar specialization, as per requirement.

3. **Responsibility of the Institute**

3.1 Provide requisite infrastructure to conduct course, like Classrooms, Computer Hardare/Software, Computer Projector, black/white board, power, power backup and other necessary equipments.

3.2 **INSTITUTE** will register students in Course by adequate information to all relevant engineering streams.

3.3 **INSTITUTE** will collect the course fee or any other fee pursuant to this Agreement from participating students in advance. INSTITUTE will facilitate the collection of fees on behalf of students.

3.4 Reimburse fee as applicable to **COMPANY** as per agreed terms.

3.5 Ensure that all the participating students attend Course Classes as per schedule and all Required infrastructure is made available for uninterrupted classes.

3.6 Institute would ensure that all students are regular in attendance.

4. **Duration for this Agreement**

4.1 The duration of this Agreement shall be for a period of 5 years from the date of signing and If not renewed or amended in writing the same shall be considered as expired and/or terminated.

5. **Termination**

5.1 This agreement shall take effect immediately on the execution of these presents. This agreement can be terminated by any party by a written letter giving one month notice period.

5.2 Upon expiry of the notice period this agreement will be terminated & both the parties will settle their accounts within one month of termination of this agreement.

5.3 Any notice request or other communication required or permitted to be given or made under this agreement to INSTITUTE or COMPANY shall be in writing. Such notice or request shall have been given or made when it shall have been delivered by hand, with a copy by facsimile, to the party to which it is addressed at such party's address specified below or at such other address as such party shall have designed by notice to the party for giving such notice or making such request:

EXOTAL TECH SOLUTION

MDC501	VALUE ADDED COURSE - II (ANSYS)	L T P C - - - -

OBJECTIVES

The main objective of this course is to:

- Acquire skill in finite element simulations using commercially available software.
- Know the steps involved in discretization of the cad model using various elements.
- Learn the steps involved in solving structural problems with given specifications.
- Gain knowledge on modal and harmonic analysis.
- Understand the thermal analysis with given specifications.

COURSE CONTENTS

a. **Analysis of a plate with a circular hole.**
b. **Analysis of beams (Cantilever, Simply supported and Fixed ends).**
c. **Analysis of truss component.**
d. **Analysis of an Axi-symmetric component.**
e. **Modal analysis of a component.**
f. **Harmonic analysis of a component.**
g. **Thermal mixed boundary conditions (Conduction and Convection).**

OUTCOMES

At the end of the course, the students will be able to:

- Solve structural analysis problems using one dimensional and two dimensional elements.
- Determine numerical solution of problem using axi-symmetric condition.
- Evaluate various model of failure of a machine component using Modal analysis.
- Apply harmonic analysis to find the response of a structural system using simulation.
- Analyze engineering heat transfer problem under given boundary conditions.

STUDENT'S FEEDBACK FORM ON VALUE ADDED COURSE

Department of Mechanical Engineering

Student's Name : S. V. Bramoth **Academic Year : 2021-2022**

Degree/Branch/Semester : B.E/Mech/V **Course Duration (Hrs): 50 hrs**

Name of the Value added Course : ANSYS

Students are requested to rate the value added course on the following attributes using the 4 point scale as shown below.

A-Very Good (4) B-Good (3) C-Satisfactory (2) D-Unsatisfactory (1)

Sl. No	Parameters	Rating
1	Coverage of the Syllabus	A
2	The course contents are illustrated with adequate practical examples	B
3	Associative level of learning from Theory to Practical	A
4	Effectiveness of assignments/other activities given in the value added course	B
5	The competencies and skills developed from the Value added course are relevant to industry needs	B
6	Regularity ,Punctuality and competency of the course instructor	A
7	The Interaction and Individual attention given by the course instructor	B
8	The outcome of the course exposes new knowledge and practices	B
9	Relevance of the Value added course content towards employability and entrepreneurship	A
10	Any other suggestions.

STUDENT'S FEEDBACK FORM ON VALUE ADDED COURSE

Department of Mechanical Engineering

Student's Name : M. VIJAY **Academic Year : 2021-2022**

Degree/Branch/Semester : B.E/Mech/V **Course Duration (Hrs): 50 hrs**

Name of the Value added Course : ANSYS

Students are requested to rate the value added course on the following attributes using the 4-point scale as shown below.

A-Very Good (4) B-Good (3) C-Satisfactory (2) D-Unsatisfactory (1)

Sl. No	Parameters	Rating
1	Coverage of the Syllabus	A
2	The course contents are illustrated with adequate practical examples	B
3	Associative level of learning from Theory to Practical	A
4	Effectiveness of assignments/other activities given in the value added course	A
5	The competencies and skills developed from the Value added course are relevant to industry needs	B
6	Regularity ,Punctuality and competency of the course instructor	A
7	The Interaction and Individual attention given by the course instructor	A
8	The outcome of the course exposes new knowledge and practices	B
9	Relevance of the Value added course content towards employability and entrepreneurship	A
10	Any other suggestions:	NO

Memorandum of Understanding

Between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

This Agreement is made on 01.06.2022 between

Sengunthar Engineering College (Autonomous), Tiruchengode

And

EXTOLTECH SOLUTION, Erode.

Sengunthar Engineering College (Autonomous) is a leading educational institute in **Tiruchengode** providing various Degree programs approved by AICTE, hereinafter referred as **INSTITUTE.**

And

EXTOLTECH SOLUTION having its office at **159, Amman Complex, Mettur Road, Erode - 639001.**

EXTOLTECH SOLUTION specializes in software development on all softwares, hereinafter referred as **COMPANY**.

1. **Now therefore both the parties hereby agree as follows:**

1.1 **COMPANY** will conduct **CAD, CAM, CAE, Software and Networking Courses** for students of **INSTITUTE** at Institute premises by providing specialized and certified Faculty.

1.2 **Both parties** will create better awareness and products of all softwares for better employability of participants at the **INSTITUTE.**

1.3 The **COMPANY** in consultation with the **INSTITUTE**, will create and refine courses as per current software program, industry demands and accreditation requirements.

1.4 The **COMPANY** will support for final year students placements.

1.5 Course selection and fixation of course fee will be as per the current situation and demands.

2. **Responsibility of Company**

2.1 Provide Faculty with requisite knowledge and experience in teaching all the software courses. The **COMPANY** will ensure substitute faculty of similar specialization, as per requirement.

3. **Responsibility of the Institute**

3.1 Provide requisite infrastructure to conduct course, like Classrooms, Computer Hardare/Software, Computer Projector, black/white board, power, power backup and other necessary equipments.

3.2 The **INSTITUTE** will register students in course by adequate information to all relevant engineering streams.

3.3 The **INSTITUTE** will collect the course fee or any other fee pursuant to this Agreement from participating students in advance. The **INSTITUTE** will facilitate the collection of fees on behalf of students.

3.4 Reimburse fee as applicable to the **COMPANY** as per agreed terms.

3.5 Ensure that all the participating students attend course classes as per schedule and all required infrastructure is made available for uninterrupted classes.

3.6 Institute would ensure that all students are regular in attendance.

4. **Duration for this Agreement**

4.1 The duration of this Agreement shall be for a period of 5 years from the date of signing and If not renewed or amended in writing the same shall be considered as expired and/or terminated.

5. **Termination**

5.1 This agreement shall take effect immediately on the execution of these presents. This agreement can be terminated by any party by a written letter giving one month notice period.

5.2 Upon expiry of the notice period this agreement will be terminated & both the parties will settle their accounts within one month of termination of this agreement.

5.3 Any notice request or other communication required or permitted to be given or made under this agreement to **INSTITUTE** or **COMPANY** shall be in writing. Such notice or request shall have been given or made when it shall have been delivered by hand, with a copy by facsimile, to the party to which it is addressed at such party's address specified below or at such other address as such party shall have designed by notice to the party for giving such notice or making such request:

Sir,

Sub: Requesting permission for conducting value added courses - Reg.

We would like to bring to your kind consideration to accord approval to conduct the value added courses to the B.E. - II Year (Fourth Semester) students of all departments as per the curriculum. In this connection, MoUs are to be made between our Institution and Industries as Training Partner mentioned against respective Departments for mutual benefits on 01.06.2022.

19MDC401	VALUE ADDED COURSES- I (SOLIDWORKS)	L T P C - - - -

OBJECTIVES

The main objective of this course is to:

- Learn the individual features and functions of SOLIDWORKS, thereby emphasizing processes and procedures for completion of any task.
- Understand the principles of technical drawings to create different 3D models.
- Extend a knowledge of parametric 3D models to design and build mechanical parts and assemblies.
- Know the setup sheets for plotting with text, dimensions, and details.
- Familiar with Parametric Modeling to manufacturing and engineering concepts.

COURSE CONTENTS

a. **2D DRAFTING**
b. **3D-MODELLING**
c. **SURFACE CREATIONS AND ASSEMBLY**
d. **DRAFTING & DRAWING**
e. **SHEET METAL FEATURES**
f. **PHOTO WORKS**
g. **PROJECT**

OUTCOMES

At the end of this course, learners will be able to:

- Demonstrate competency with multiple drawing and modification commands.
- Create three-dimensional solid models.
- Build three-dimensional assemblies incorporating multiple solid models.
- Apply industry standards in the preparation of technical mechanical drawings.
- Make simulation of the assemblies incorporating multiple solid models.

STUDENT'S FEEDBACK FORM ON VALUE ADDED COURSE

Department of Mechanical Engineering

Student's Name : Aathithiyan **Academic Year** : 2021-2022

Degree/Branch/Semester : B.E/Mech/V **Course Duration (Hrs)** : 30hrs.

Name of the Value added Course : Solid Works.

Students are requested to rate the value added course on the following attributes using the 4-point scale as shown below.

A-Very Good (4) B-Good (3) C-Satisfactory (2) D-Unsatisfactory (1)

Sl. No	Parameters	Rating
1	Coverage of the Syllabus	A
2	The course contents are illustrated with adequate practical examples	A
3	Associative level of learning from Theory to Practical	A
4	Effectiveness of assignments/other activities given in the value added course	B
5	The competencies and skills developed from the Value added course are relevant to industry needs	A
6	Regularity and Punctuality and competency of the course instructor	A
7	The Interaction and Individual attention given by the course instructor	B
8	The outcome of the course exposes new knowledge and practices	A
9	Relevance of the Value added course content towards employability and entrepreneurship	A
10	Any other suggestions:	No

Organizing Department/Cell	Electrical & Electronics Engineering	Programme Date	12.04.2022 Tuesday 10.30 am –12.30 pm
Programme Title	Career Guidance Programs on "Job Opportunities in Web Design"		
Resource Person(s)	Name	Address	Contact Details
	Mr K Sivakumar	Managing Director, CADD Training Centre, 53/6, II Floor, Marappa Goundar Plaza, Tiruchengode	9715257333
Participants	Branch / Class / Section	Total	Total Participants
Students	III & IV YEAR/EEE	36	40
Staff	04	04	
Objective(s) of the Activity	The main objective of this awareness programme is to: 1. Efficient usage of electrical power 2. Safety measures from electricity 3. First Aid procedure		
Outcome(s) of the Activity	After this programme, the students will be able to: 1. Acquire knowledge in utilization of electrical power 2. Gain knowledge in safety precautions 3. Get knowledge on first aid process		
Coordinator of the Programme		G Senthilrajan, AsP/EEE

PROGRAMME CONTENT OR SYLLABUS

PROGRAMME TITLE: Career Guidance Programs on "Job Opportunities in Web Design"

Academic Year: 2021-2022 Semester: ~~ODD~~ / EVEN Date : 12.04.2022

Basic Web Designing Course Syllabus

- ✓ Web designing courses can be broken down into various specializations like UI/ UX, Typography, and many more.
- ✓ Before starting with a web designing course, you must know the basics including back end, front end web design, how to recognize a good visual design, etc.
- ✓ The Basic Web Designing Course syllabus includes topics like UI/UX, HTML, CSS, concepts of visual design, and more.

UX/UI Syllabus for Web Designing Course

UX design stands for "User Experience Design" while UI Design stands for "User Interface Design". While UI focuses on the interaction between users and computer systems as well as software and applications, UX emphasizes the user's overall experience with a brand, product, service, etc.

HTML Syllabus for Web Designing Course

HTML is used in structuring a web page and its content. It is an integral part of the web design course and plays a key role in creating a website.

CSS Syllabus for Web Designing Course

CSS is an essential tool and also the language for determining the overall look of web pages, including colors, layout, and fonts. CSS works independently and does not require HTML and has the ability to adapt a webpage to different environments.

PROGRAMME TITLE: LIFE SKILLS FOR ENGINEERS

Academic Year : 2021-2022 Semester : ODD / EVEN Date / Period : 22.10.21 to 10.03.22

19EEC101 LIFE SKILLS FOR ENGINEERS

(Employability Enhancement Course)

(Common to Civil,CSE,ECE,EEE & Mechanical)

UNIT I COMMUNICATION SKILL

Introduction to Communication, The Process of Communication, Barriers to Communication, Listening Skills, Non-verbal Communication and Body Language, Interview Skills, Group Discussion, Presentation Skills, Technology-based Communication- Technical Presentation

UNIT II CRITICAL THINKING & PROBLEM SOLVING

Creativity, Lateral thinking, Critical thinking, Multiple Intelligence, Problem Solving, Mind Mapping & Analytical Thinking.

UNIT III CAREER SKILLS

Introduction to Employability and Career Skills - developing a long - term career plan - making career changes -Time Management - General awareness of Current Affairs - Stress management - Leadership straits - Team work - Career planning.

UNIT IV ETHICS MORAL & PROFESSIONAL VALUES

Human Values, Civic Rights, Engineering Ethics, Engineering as Social Experimentation, Environmental Ethics, Global Issues.

UNIT V LEADERSHIP SKILLS

Leadership, Levels of Leadership, Making of a leader, Types of leadership, Transactions Vs Transformational Leadership, VUCA Leaders, DART Leadership, Leadership Grid & leadership Formulation.

POST PROGRAMME REPORT

Organizing Department/Cell	SCIENCE AND HUMANITIES (PHYSICS)	Programme Date	Semester I 2021-22
Programme Title	Life Skills for Engineers		
Resource Person(s)	Name	Address	Contact Details
1)	Dr.K.L.PALANISAMY	Dean/Student Affairs, Sengunthar Engineering College	klpalanisamy@gmail.com
Areas covered during the activity	1. Develop communication competence for engineers and enable them to convey thoughts and ideas with clarity and focus 2. Inculcate critical thinking process on problem solving 3. Have an overview on career skills required in their profession 4. Learn professional Ethics and Moral values 5. Lead a team with more responsibilities to be succeeded in their endeavor.		
Participants	Branch / Class / Section	Total	Total Participants
1)Students	I year B.E. (All Branches)	156	156
1) Staff	-	-	
	Actual Expenses for the Programme in Rs.		Nil
Consolidated Feedback Report	The students are very much satisfied to be able to: 1) Communicate effectively and make effective presentations 2) Write different types of reports 3) Face interview & group discussion 4) Critically think on a particular problem 5) Get success in all aspects and develop public skills		
Programme Coordinator	This course has been very helpful for students to find new ways of thinking and problem solving. Recognize the impact of their actions and teaches them to take responsibility for what they do rather than blame others. Build confidence both in spoken skills and for group collaboration and cooperation

Sir,
Request Permission to this seminar in this week.
15/12/21
May be arranged

Date:

To,

Dear Sir,

Sub: Requisition for conducting a seminar on

"Living a Successful Meaningful Life" for your students.

We wish to introduce ourselves as a society aimed towards enlightening youth and establishing ethical values among them. IYW (ISKCON Youth Wing) conducts such programs in schools & colleges for the students' well being and their living a life of success and meaning in it.

During the last few decades human society has progressed rapidly in science, technology, and economic development but people are more dissatisfied, full of anxiety, stressed, depressed and unhappy. There is public unrest, communal violence, terrorism, war, crime, violence, murders, rapes, corruption, drug addiction, suicides, divorce, etc. All over the world we observe rapid decrease of spiritual and moral values that result in large scale fights on petty and selfish issues between nations, communities, and individuals. Students are getting distracted in their youthful life and there is lack of proper behavior, character, respect, culture, custom, traditions, values among students. Our program teaches students about living a moral, good social & public life, a honest & cultural life and above all a successful happy life.

In order not to disrupt the tight schedule of colleges, we do our program either on a class to class basis for a time of 20-30 mins with 3 or 4 spokesmen who can simultaneously speak in 3 or 4 classes. or a in a **more effective approach with a Power Point presentation and video session** for an hour combinedly for around 250 students in a batch, we speak on the values of living a meaningful life with tips, guidelines from our age old Indian classic Book of wisdom, Srimad Bhagavat Gita. This is a full **FREE** seminar for all students. We keep Gita with us and if some students are interested to know more, they can buy Gita from us. We are just trying to help the schools and colleges to fill up the gaps that completes the full education of the students. We assure you that this program will definitely benefit your students for their successful life.

Thanking you,
Yours sincerely,

Report on International Women's Day Celebration

Women's Day Celebrations organised by Mahila Club (Women Empowerment Cell)

International Women's Day was celebrated both online and offline in a hybrid mode. In order to show solidarity and recognize the dreams, aspirations and empowerment of women International Women's Day was celebrated on March 8, 2022, through Online and on 17.3.2022 yet another day has given by the management to celebrate it in our college premises in order to emphasis the theme "Gender equality today for a sustainable tomorrow". As per the direction of Prof. A. Baladhandapani, Secretary & Correspondent, Sengunthar Institutions and the support of the Principal various games were conducted on 17.03.2022 to mark this day wonderful. All the female students and the female faculty members actively participated in the celebration. The chief guest of the event on 08.03.2022 is Ms. S. Lakshmi Priya, Founder - SRP Enterprises, Coimbatore, Er. Aravind Thirunavukkarasu, Director, Corporate Relations & Training, Sengunthar Institutions joined online and made this event success.

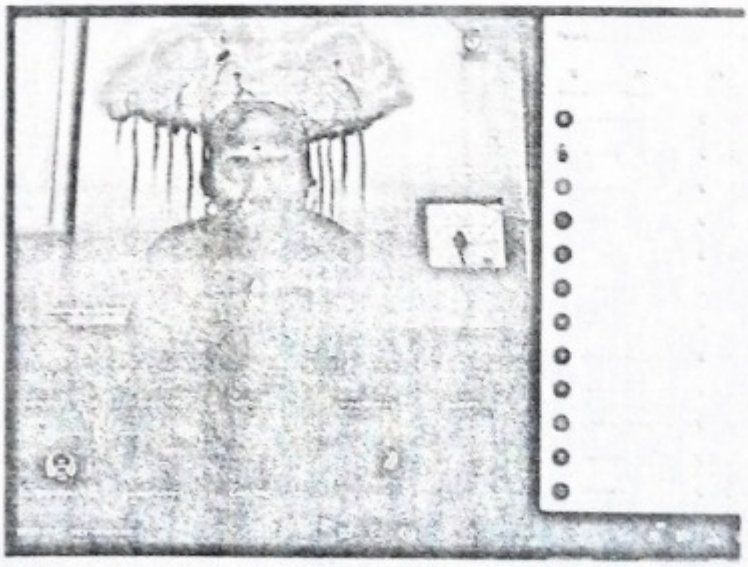

Date(s) : 08/03/2022 & 17/03/2022

Venue : Online / Sengunthar Auditorium

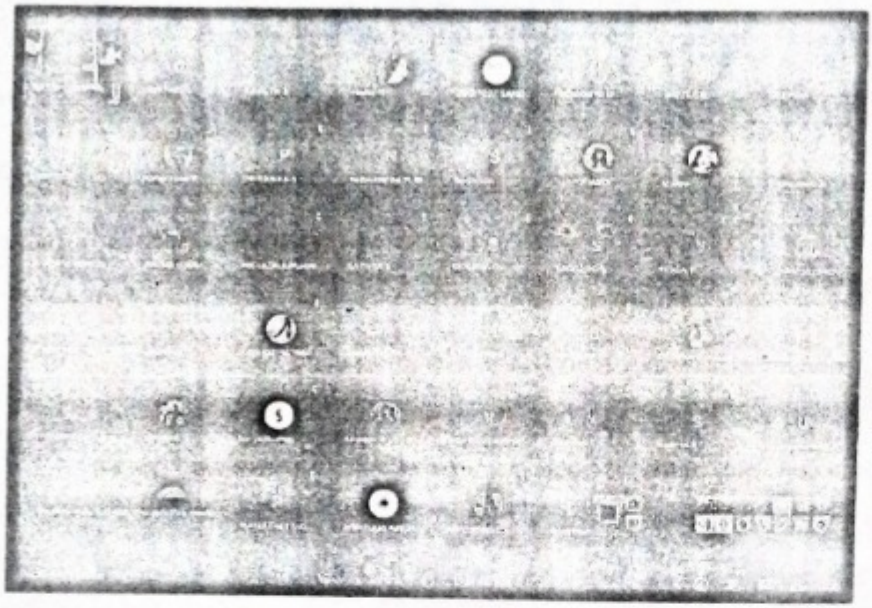

Beneficiaries : UG & PG students of Engineering

Participants : Sengunthar Engineering College girl students & female faculty members

The chief guest is addressing the audience on 08.03.2022 at Online Mode Celebration

Students' active participation at online mode celebration

Report on Women's Day Celebration on 08.03.2022

With audience of 150 members (including staff and students), the event commenced with welcome note and small introduction about WEC, at 10.15 a.m.

Dr. K. Umadevi, Principal, Sengunthar Engineering College (Autonomous) presented her views regarding this special occasion. Besides, she brought out the role of woman in family and society. She said that women's day is to celebrate the achievements of women in various fields and also to express our respect, appreciation & love towards the most powerful gender. She added that women play a dominant role in the society and also illustrated the achievements of women's.

Dr. B. Sujatha, Prof. & Dean-Academics, Sengunthar Engineering College (Autonomous) introduced the Chief Guest to the audience by highlighting her achievements.

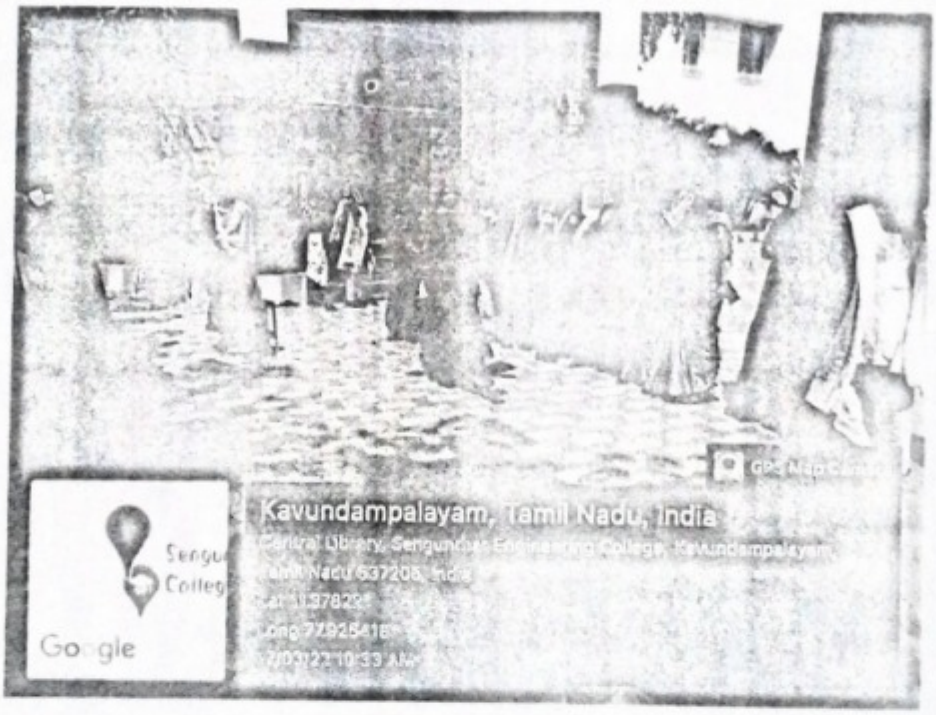

The chief guest Ms. S. Lakshmi Priya, Founder - SRP Enterprises, Coimbatore accented the importance of this day by saying that the celebration is being done only because no other species possess such plethora of attributes. History has written the efforts of woman in golden words. Whether in domestic field or in various other professional fields, women achieve pinnacle everywhere. She also told about women's rights in every aspect of life and protested day-to-day crime committed against women. She also advised the girl students to be career conscious and economically independent. She quoted "Being a woman is the best way of being in the world."

Activities Performed on 17.03.2022:

- Logo contest
- Cooking without fire
- Hair Dressing
- Roll and Blow
- Pick draw burst
- Singing and Dancing

Significance/need of the program:-

Keeping in view the growing imbalance in the man-woman ratio, we have to emphasize focusing on celebrating and welcoming girl child. To get rid of vicious social customs the status of women shall have to be enhanced. The purpose of celebrating Women's Day is – To raise awareness about the status and dignity of women among the students. Students are performing fun event in front of the Central Library in front of the faculty members

Fun Event by the students

Cook without fire Event

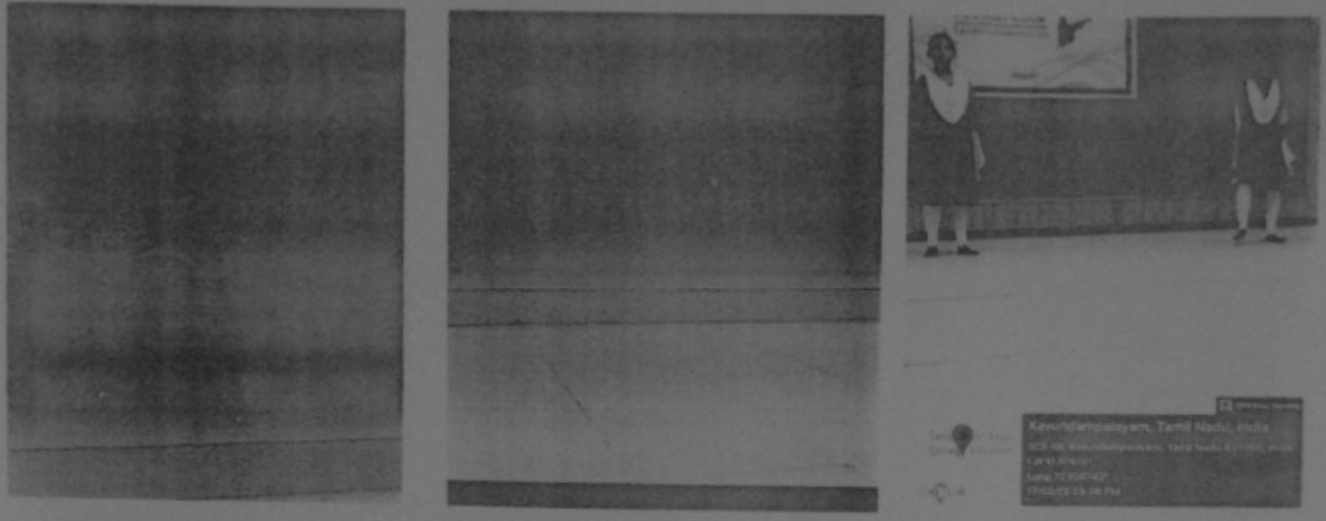

The Glimpses of Women's Day Celebration on 17.03.2022

Balloon Games

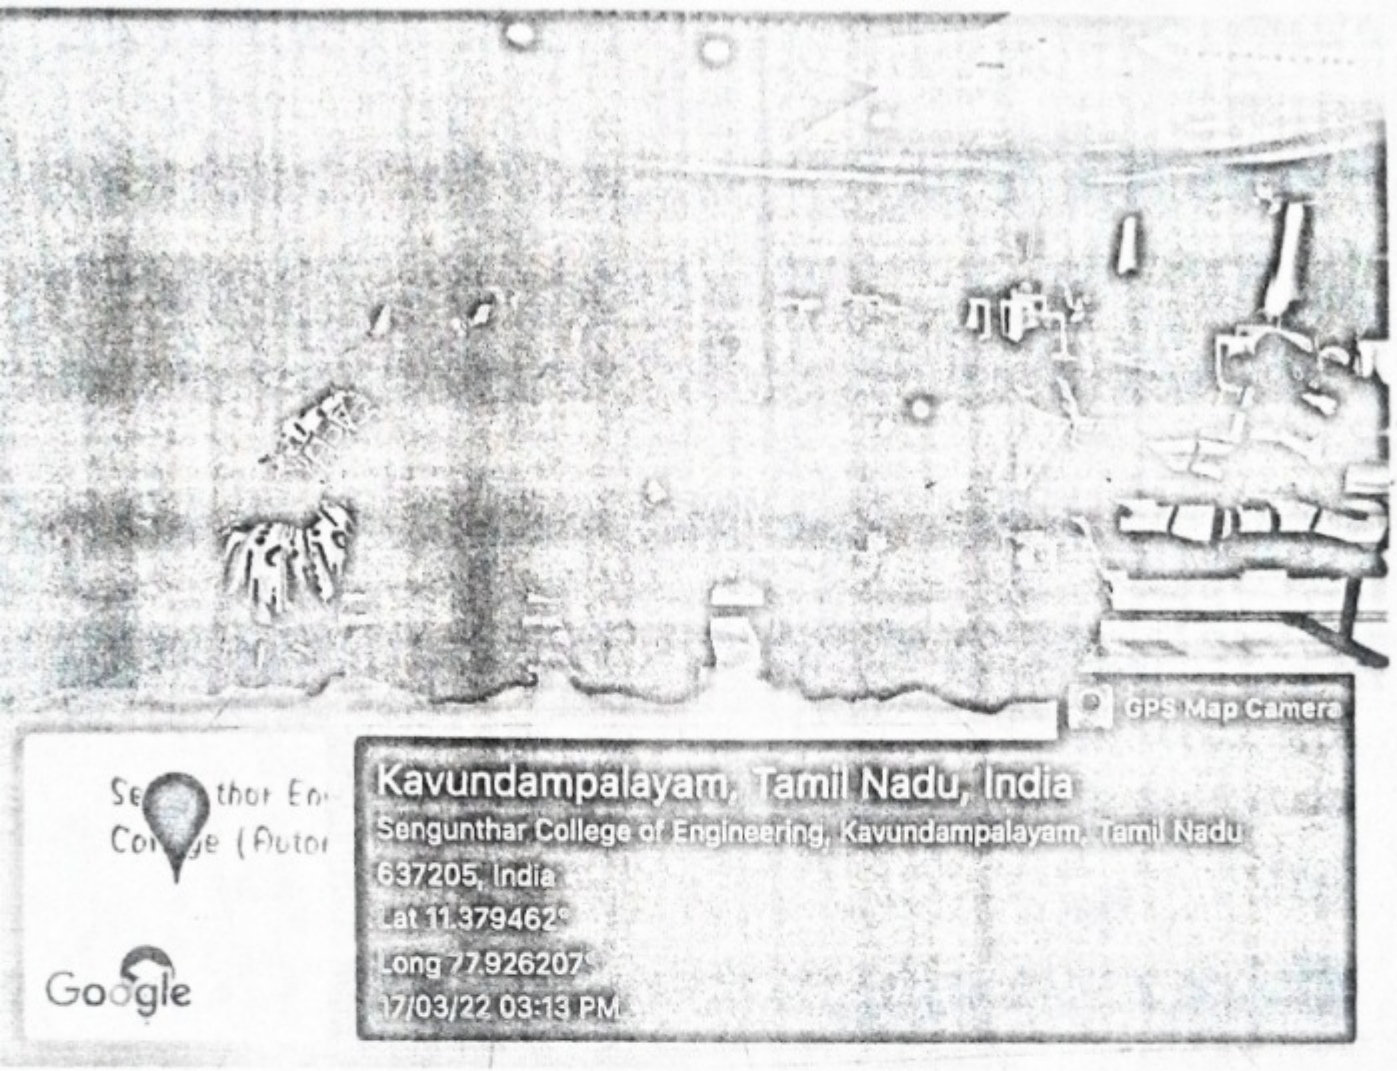

Students eye-catching performance in Dance Competition

Singing a song in Song Competitions

At the end, prize distribution for the winners of various competitions was done. The Program was concluded by proposing the vote of thanks.

The theme for International Women's Day 2022 (March 8) is 'gender equality today for a sustainable tomorrow'. However, gender equality is still a far cry for India's females, so female students of our college were educated about their potential and caliber through these activities. Besides, they were motivated to sustain and survive in the world to face the challenging and changing world.

PROGRAMME CONTENT OR SYLLABUS

PROGRAMME TITLE: National Science Day - 2022

Academic Year: 2021-2022 Semester: ODD / EVEN Date / Period: 28-02-2022

28th February is celebrated as National Science Day (NSD) in India. NSD is celebrated to commemorate discovery of the 'Raman Effect', which led to Sir C.V. Raman winning the Noble Prize.

In 1986, the National Council for Science and Technology Communication (NCSTC) asked the Government of India to designate 28 February as National Science Day which the then Govt. of India accepted and declared the day as National Science Day in 1986. The first National Science Day was celebrated on February 28, 1987.

NSD 2022

The theme of NSD-2022 is **"Integrated Approach in S&T for Sustainable Future"**.
The four fold approach of integration would consist of

- integration of all the scientific departments which can work on theme based approach;
- extended scientific integration encompassing engineering, medical and other institutions;
- extra scientific integration involving identification of the needs of other ministries like jal shakti, railways etc; and
- Extended science driven all inclusive approach integrating startups & industry.
