

Industrial Visit Enhances Practical Electrical Knowledge

Students of the Department of Electrical and Electronics Engineering (EEE) undertook a one-day industrial visit to two electrical manufacturing units in Salem on Monday. The visit included Sky Power Switchgears and Zekko Power Private Ltd. The objective of the visit was to help students gain practical exposure to the manufacturing processes of LT and HT switchgear panels and control panels. During the programme, industry experts explained the stages involved in design, fabrication, wiring, testing, and quality control of electrical panels. Students were also introduced to the practical aspects of designing and assembling electrical distribution systems used in industrial and commercial installations. The visit provided an opportunity for them to bridge the gap between theoretical knowledge and industrial practices. Faculty members accompanying the students said the programme was aimed at strengthening industry-academia interaction and enhancing the technical understanding of budding engineers.

The Department of Civil Engineering at Sengunthar Engineering College successfully conducted its 10th Board of Studies (BoS) meeting on March 06, 2026. The meeting focused on reviewing and refining the academic curriculum in alignment with recent technological advancements, current industry requirements, and regulatory norms. Academic experts, industry representatives, and faculty members actively participated in the deliberations and provided valuable suggestions to enhance the course structure, learning outcomes, and employability skills of students.
