

ECE Students Visit Robotics Firm in Kerala as Part of Industrial Tour

The Department of Electronics and Communication Engineering organized a two-day industrial visit for its II and III year students, commencing on Thursday. On the first day, the students, accompanied by faculty members, visited Inker Robotics Pvt. Ltd. in Kerala. During the visit, students were exposed to advanced robotics technologies and gained practical insights into industrial applications relevant to their field of study. The programme aimed to bridge the gap between theoretical learning and real-world engineering practices.

Reshma R, a faculty member from the Department of Medical Electronics at Sengunthar Engineering College, presented her paper titled “Smart Assistive Medication Reminder with Haptic Feedback and Vital Health Monitoring” at ICCISS’26 held at Sona College of Technology, Salem. The conference was conducted on March 13–14, 2026.

On behalf of YRC, NSS and ADC combined with Health Department, Collectorate campus, Namakkal conduct Antidrug and Tobacco awareness program. Dr.N.Latha, District Tobacco consultant, Dr.N.Nagarajan, Health Educator, Health Department, Collectorate campus, Namakkal delivered their valuable speech.

Research Achievement Dr. V. Pavalan and Dr. M. Soundar Rajan from the Department of Civil Engineering have successfully presented their research paper titled "Investigation on Thermal Expansion Co-efficient of Basalt Fibre Reinforced Polymer Bars" at the National Conference on Advanced Research in Mechanical Sciences (ARMS 2026), hosted by SRM Institute of Science and Technology, Vadapalani. Their research provides critical insights into the durability and thermal stability of sustainable reinforcement materials, paving the way for more resilient and corrosion-resistant infrastructure in modern Civil Engineering.

Department of Civil Engineering conducted a seminar on "Forest Conservation and Sustainable development" on 27.03.2026 delivered by Mr. S.Sathiyammorthi, Retired forest range officer, Salem division. The seminar is motivated individuals to adopt environmentally friendly practices such as reducing paper use, planting trees and conserving natural resources.

Engineering Students Attend Industrial Visit and Seminar in Kochi

As part of an industrial visit, II and III year students participated in a programme at SINRO Robotics, Kochi, on Thursday. The visit formed the first day of their academic exposure tour. During the session, students attended a seminar on the “Future of Infrastructure Solutions,” which covered key areas such as Internet of Things (IoT), Artificial Intelligence (AI), embedded systems, metro water management, boat count monitoring, integrated surveillance and monitoring systems, and cyber security. The programme provided valuable insights into emerging technologies and their real-time applications, enhancing the students’ understanding of modern industrial practices.
